**PERIODIC TABLE OF THE ELEMENTS-LONG FORM**

**Modern Periodic Law as stated by Moseley:**  
The Properties of Elements are a Periodic Function of their Atomic Numbers.

**The Main Features**  
1. The elements have been arranged in the order of their atomic numbers.  
2. The properties of the elements are periodic functions of their atomic numbers.  
3. The elements in each period show a gradual change in properties from left to right.  
4. The elements in each group show similar properties.  
5. The elements in each period increase in atomic number by one unit.  
6. The first period of eight elements consists of the two elements H and He.  
7. The second period of eight elements consists of the elements Li to F.  
8. The third period of eight elements consists of the elements Na to Ne.  
9. The fourth period of eight elements consists of the elements K to Ar.  
10. The fifth period of eight elements consists of the elements Rb to Kr.  
11. The sixth period of eight elements consists of the elements Cs to Rn.  
12. The seventh period of eight elements consists of the elements Fr to Lu.

**GROUPS**  
1. Alkali Metals  
2. Alkaline Earth Metals  
3. Boron Group  
4. Carbon Group  
5. Nitrogen Group  
6. Oxygen Group  
7. Halogens  
8. Noble Gases

**P-BLOCK ELEMENTS**  
1. P-block elements consist of the second through 12th groups of the periodic table.  
2. They are also called the p-block elements because they all have a valence shell with three p-orbitals.  
3. The p-block elements are divided into four sub-blocks:  
- Groups 13-15: The p-orbitals are half-filled.  
- Groups 16-17: The p-orbitals are completely filled.  
- Groups 18: The p-orbitals are empty.  
- Groups 19-20: The p-orbitals are partially filled.

**F-BLOCK ELEMENTS - LANTHANIDES AND ACTINIDES**  
1. Lanthanides: Elements 57-71 (Ce-Lu).  
2. Actinides: Elements 90-103 (Th-Lu).

**Periodic Law**  
1. Black: Solid  
2. White: Liquid  
3. Yellow: Gas  
4. Red: Reactivity  
5. Blue: Density  
6. Green: Melting Point  
7. Orange: Boiling Point  
8. Purple: Ionization Energy  
9. Brown: Electronegativity  
10. Grey: Ion Radius  
11. Light Blue: Atomic Radius  
12. Light Green: Atomic Mass  
13. Light Orange: Electrons per shell  
14. Light Purple: Number of shells  
15. Light Brown: Valence shell electrons  
16. Light Grey: Ion radius  
17. Light Light Blue: Atomic radius  
18. Light Light Green: Atomic mass  
19. Light Light Orange: Electrons per shell  
20. Light Light Purple: Number of shells  
21. Light Light Brown: Valence shell electrons

Å Mandating submission of Aadhaar number to register a rent agreement may violate a Supreme Court judgement. Å Further, the Authority must upload the details of the agreement (and supporting documents) on a public portal. Å This may violate the right to privacy of the contracting parties. Å The timeline for resolution of some disputes by adjudicatory bodies has not been specified in the Model Act. Å These include disputes on withholding essential services, revision of rent and contraventions by property managers. Å PART A: HIGHLIGHTS OF THE BILL Context Rental housing is regulated by states as land, land improvement, and control of rents falls under the State List of the Constitution.[1]Å Post independence, states regulated rental housing through rent control laws. Å These laws specified a ceiling on the rental amount, and put conditions for eviction of the tenant, to prevent landlords from charging exorbitant rents and ensure that people found safe and stable housing. Å The 2015 draft Rental Housing Policy noted that these laws led to low rental yields, and disincentivised landlords from investing in rental properties. [2]Å These also skewed arrangements towards tenants, made it difficult to evict them, led to more litigation, and consequently eroded the trust of landlords in the regulatory system.2,[3]Å This led to the rental demand being serviced through other rental arrangements such as leave and license agreements.2 Reforms in tenancy laws were first recommended at the central level under the Jawaharlal Nehru Urban Renewal Mission (JNNURM) in 2005.[4]Å JNNURM listed the repeal of rent-control laws as a mandatory reform to access aid under the mission. Å States could formulate laws regulating rental housing on Model Rent Legislation, 1992. However, from 2020, 20 states continue to have laws on rent control.[5],[6],[8],[9],[10],[11],[12] Some states like Madhya Pradesh, Jharkhand, and Chattisgarh have repealed their rent control laws[13],[14],[15] Rental homes is a predominantly urban phenomenon in India. Since 2013, 95% of families in rural areas live in autonomous homes. [16] Globally, the demand for housing in urban areas is proportional to the growth of the population living in urban areas. However, in India the trend was different, which could be attributed to a political push towards the property of the house and low rental returns.2 Between 1951 and 2011, the urban population in India has grown six times and since 2011, includes 31% of the total population. 2 However, the share of people living in housing for urban rent fell from 58% to 27% between 1961 and 2011.2 Urban areas also face a significant shortage of housing. Since 2012, the shortage of urban housing has been estimated to rise to 43.7 crores of 2021.2 The National Urban

However, the share of people living in housing for urban rent fell from 58% to 27% between 1961 and 2011.2 Urban areas also face a significant shortage of housing. Since 2012, the shortage of urban housing has been estimated to rise to 43.7 crores of 2021.2 The National Urban Rental Housing Policy project, 2015 noted that the lack of housing in urban areas will not be resolved by domestic property, and suggested the promotion of housing for rent. It is recommended to repeal existing rent control laws and the adoption of a new rental framework based on the Model Tenancy Act, 2015.2 So far, Tamil Nadu has issued a law governing tenancy based on the model law of 2015. The Ministry of Housing and Urban Affairs issued another draft of the Model Law in October 2020 for public feedback. The Model Tenancy Act, 2021 was approved by the Government on 2 June 2021 for the adoption by States and trade union territories. It aims to: (ii) adjust the rent of premises, and (iii) interests of owners and tenants. A Key agreement of the characteristics for the lease, eviction and sub-letting lease: A The model law states that to rent any premises, a written agreement must be signed between the owner and the tenant. A The agreement must specify: (i) the payable rent, (ii) the lease time period, (iii) terms and period for the revision of the rent, (iv) the security deposit to be paid in advance, (v) reasonable causes for the entrance of the owner in the premises and (vi) responsibility for maintaining the premises. This will apply to all premises used for residential, commercial and educational purposes. Security deposit: the security deposit may not exceed: (i) two-month rent for residential premises and (ii) six months- Rental for non-residential premises. The security deposit will be refunded by the landlord to the tenant at the time of detection of the vacant possession of the premises, after having made deductions due. A Rental period: the tenant may request the owner to renew or extend the lease period. A The tenant will be required to pay the improved rent if: (i) a lease period is terminated and has not been renewed, or (ii) the tenant fails to leave the premises at the end of such lease. If the tenant fails to leave the premises at the end of the lease or at the end of the lease of an order, he will be required to pay: (i) monthly rent for the first two months and, (ii) four times Monthly rent later until it occupies the premises. Evaluation: to evict a tenant, the owner must apply to the renting authority looking for such an eviction. A The authority may issue an eviction order for certain reasons including: (i) refusal to pay rent(ii) failure to pay for the rent for more than two months; (iii) Participation of possession of the part or whole of local premises ni ecsiga es Äteirporp al erazzilanep o erekumir rep ottagap "A ottiffa'l iuc us isac ilat ni inigadni ehcnia errudnoC ;ottiffa'l elibagap "A ihc a erediced "Aup non sectors. 2 accommodation for rent Informal Informal The NSSO (2008-09) estimated that only 5% of rental homes were rented through formal agreements. 16 The National Rental Housing Policy (2015) project recognised that existing legislation on rental control has made it economically unattractive and increased computerization and unregistered modes on the market. 2 However, the policy project states that other measures must be taken to reduce the prevalence of informal agreements. These include the use of IT enabled platforms to decrease transaction costs, simplified registration process in a timely manner and facilitate online registration of properties. 2 Vacant case: The National Urbanization Commission (1988) found that there was a considerable number of housing assets in urban areas. It is recommended to take curative measures to prevent owners from maintaining vacant homes. [21] According to the 2011 census, 1.1 crore houses are vacant in urban areas. 16 The National Rental Housing Policy (2015) project states that the possible reasons for this can be low renting performance, fear of repositioning among the owners, and lack of incentives. 2 Model Atto specifies the minute details of a rental contract. The basic note of the Model Act, 2020 stated that it seeks to balance the polluter-landlord ratio. 19 Model 2021 The law aims to provide rights and duties of both parties, to instruct the use of registered agreements and to give statutory support to certain provisions. It also provides details of: (i) when a tenant can be expelled from a landlord, (ii) heir in case of death of a landlord, and (iii) legal remedies available with the tenant and the landlord in case one violates the agreement. However, the model 2021 The law also goes into details
