## Chuhi hi8 se price

Thanks to its appearance in some shops we have the first specifications of a new CHUWI Hi8 SE a 8-inch screen tablet oriented to the cheapest segment given the hardware specifications it presents. It is surprising that even though it includes a SoC that has been on the market for a long time, the MT8735 includes Android 8.1 as an operating system, it seems that Mediatek is improving in support and has an integrated 4G-LTE modem, although it is not announced on the site in its details. SoC, RAM and storageCHUWI Hi8 SE includes a Mediatek MT8735 SoC a Quad Core with ARM Cortex-A53 processors capable of reaching 1Ghz and a GPU ARM Mali-T720mp2. The installed RAM is 2 GB and the storage is 32 GB, although we can increase it thanks to the micro included SD port. A sufficient configuration for a basic but gimp tablet if we want to use the main games. Screen and other specifications The CHUWI Hi8 SE screen is an 8-inch IPS with a resolution of 1920 x 1200 pixels that includes a 2MP webcam with microphone in its upper part while in the back we have another 5MP. It also includes WiFi aC, Bluetooth 4.0, GPS and a 4000 mAh battery. At connectivity level, we would have a 3.5 mm audio jack and a USB micro port for data and power. Price & Availability The new CHUWI Hi8 SE tablet is currently only listed in Banggood.com online store for \$199.99 (€173.58) including shipping. A price that is sure to come down a lot when there is real stock. BaseProduct description Customer question and answer (0) The price above is EXW price, freight transport is not yet included. Please note. Thank you.
