What's new in v3.36.3: Images from the game (Sniper 3D Gun Shooter Mod APK): If you like playing shooting games, you must have heard of Sniper 3D or even tried it! Needless to say, the game has a huge fan base of more than 100 million worldwide. Sniper 3D is a free first person shooter game by Fun Games for free. With over 100 million downloads, it's clear that the game is a thriller and it's very awesome. In the game you go on a hunt for criminals and terrorists! You just have to find a comfortable position, pick up your weapons and eliminate the villains who can harm civilians. Stay one step ahead of your opponents to complete contracts and level up your game. Thanks to the beautiful and realistic 3D graphics and excellent animations, the player becomes a part of the game. It makes the game more interesting with realistic characters, cars, buildings, roads, etc. You have a chance to wage global crime wars and become the ultimate sniper killer. Download Sniper 3D, take your gun, shoot and all of them hundreds of exciting missions! The joy of becoming a professional sniper Undoubtedly, assassins and professional snipers are always a hot topic around the world. They appear on dangerous peacekeeping missions around the world that may never reach the public. If you are a fan of the amazing action that snipers have to offer, download Sniper 3D today and experience the joy of becoming a professional sniper! This game is a first person shooter. The player assumes the role of a sniper assassin whose sole objective is to destroy and eliminate the assigned targets. The mission system consists of a list that the player can gradually complete by choosing any course of action. For beginners, the path to the best sniper is not child's play! It would be best to do the low reward quests first to get used to the higher level quests. In particular, you will face various challenges where you have to be fast enough to pull the trigger and kill the bad guy before it is too late. If you don't complete the missions successfully, you won't level up. Make sure to upgrade your weapon to the strongest and most effective one to improve your game. Get Sniper 3D and destroy the enemies of the city in one shot! Key Features of Sniper 3D In addition to user-friendly controls, truly immersive fast-paced multiplayer gameplay, and the ability to unlock and upgrade weapons, the game also has other exciting features. Here are some amazing features that will make you want to download the game today. SUPPORTS ONLINE AND OFFLINE FREE PLAY - It is really remarkable that Sniper 3D game supports online and offline modes. The offline mode ensures that players can enjoy the game with a wide variety of tasks without an internet connection. On the other hand, the online mode helps players compete with other players from around the world for achievements and best skills through the internet. It is donethanks to the online multiplayer feature. Simple controls Unlike most shooters, Sniper 3D has fairly simple controls. The player simply needs to swipe the screen in any direction to set the crosshair on the target and press "Shoot!". Sometimes the crossover can be affected by the wind and vibrate, making it difficult for the player to adapt. If the target is to be eliminated is in close proximity, the effect may be negligible. If the target is further away, you may need to zoom in for accuracy. If you miss and the villain runs away, it will be very difficult for you to hit him with subsequent shots. After hitting the target, a slow replay of the projectile hitting the target occurs. You can exit the relay by clicking the "Continue" button. Classic weapon. The game offers a wide selection of classic weapons. You can choose the best rifle from a hunting rifle, a Glock pistol, an awesome assault mp5 or a colt in the armory! The entire arsenal of the game can be unlocked and can be used to increase the number of participants, especially in the difficult levels of the game. There are about a thousand rounds of ammunition, assault rifles, the best sniper rifles, pistols, shotguns, etc. More interesting is the feature that allows the player to upgrade and buy various weapons with gold coins. For example, you can upgrade various parts of your rifle, including ammo, caliber, and grip, to get bullets that do more damage to your targets. Incredible sniper challenges... the game offers hundreds of exciting missions. These include saving the president, saving government secrets from scammers, terrorists, suicide bombers, drug dealers, thugs, corrupt cops, city criminals and more. destruction. Success in every mission creates another extreme challenge. The most impressive thing about these missions is that they do not repeat. These are random new challenges that test the player's shooting and dodging skills. As the game creates different situations with different challenges, the player must apply his sniper skills to achieve the set objectives despite failures! Ultra realistic 3D graphics and sound - Sniper 3D game allows the player to feel like a real sniper with realistic 3D graphics. Everything from the smallest things like cars, poles, bus stops to skyscrapers and even light reflections are in HD quality. Another commendable feature of the 3D graphics is the extremely accurate reaction of the targets to being hit by bullets. The in-game soundtracks are a big plus. When a sniper killer attacks, there are also gunshots and cream of human flesh! Download Sniper 3D Mod APK - Unlimited Money and Diamonds With the latest sniper 3D mod APK, you can get much more than the previous version. With Sniper 3D Mod APK Unlimited Diamonds, Gems, Money, Coins and Versions you can buy and upgrade weapons without limits. Download Sniper 3D Mod APK today and unlock all weapons! Sniper 3D MOD APK (Unlimited Money) is ready to download. Join this exciting shooting game and become the best sniper killer in the world. Meet Sniper 3D Sniper Shooter Free's success in the mobile gaming industry has made Fun Game For Free a household name. This developer is still appreciated for continuing to provide better quality products to the public. Soon after, they released Sniper 3D, a game similar to Sniper Shooter Free. It is a shooting game with beautiful 3D graphics that promises players a lot of exciting and interesting experiences. Gameplay Sniper 3D is a first person shooter. Players will take on the role of a sniper assassin whose only goal is to destroy the targets assigned to them. The task system consists of a list, but the player can perform them sequentially, choose any and make a decision. If you're a beginner, I'd do it that you try the low reward tasks first to get used to the controls and train more skills. Most high reward missions have many requirements, such as the player having the right weapon (required in game). Higher difficulty challenges require a more realistic combat experience. Usually one shot can kill the target, but if it's a headshot you get more gold. In addition, it is also required for some special tasks. Sometimes poor targeting will result in you "accidentally" killing some innocent people. Although it won't affect the amount of money you get, you'll scare the people around you and scream. Your target senses danger and quickly disappears into the crowd. You may also realize that shooting a running person is very difficult, which may make you want to play again. There are also cases when the target freezes for a moment out of fear. You should quickly take advantage of this opportunity to correct your mistakes and quickly achieve your goals. Online and Offline Mode Sniper 3D supports both offline and online modes. Online mode helps players enjoy more fun moments as they compete for achievements and skills with friends from all over the world. Offline mode allows players to play anywhere with many exciting and challenging missions. Controls As a mobile shooter, Sniper 3D has a relatively simple control system. Players simply swipe the screen to adjust the reticle and press to shoot the target. It sounds simple, but it's actually not easy to do perfectly. Since the net is affected by the wind, it will always vibrate, making it difficult for the player to set up. If the target is in close proximity, the effect is not great. But at longer range, the target is smaller, so you can miss with only a small margin. The targets don't stand still either, they move very fast, so landing requires more precision. Weapons When it comes to first-person shooters it's impossible not to mention the game's weapon system. Sniper 3D has a huge arsenal for you to enjoy. To unlock more beautiful and better weapons you have to level up by participating in campaigns and completing multiple missions to gain experience points. Also, you can upgrade, buy and sell many different weapons for gold coins in the in-game shop. A tip for you is that all sniper rifles will power up when playing offline. In online mode, it is worth using a shotgun or pistol for better results. Graphics and Sound What excites me the most is that Sniper 3D's graphics are meticulously maintained, from the smallest things like poles, cars to skyscrapers and even light reflections. Another commendable fact is that the context of the assassination missions is also extremely varied without giving the player a sense of repetition. Also, the reaction of the sniper characters is extremely real, not only of the main target but also of other people who must also be scared when they spot the danger. The sound is a big plus in realistically simulating gunshots, screams, when suddenly a sniper killer appears in their peaceful surroundings. Unlimited Money: Increase it as you spend it. Remember that while using Sniper 3D MOD APK you will get a lot of money and diamonds if you use the MOD version. However, you CANNOT use diamonds to upgrade and buy weapons. Download Sniper 3D APK and MOD for Android Overall. Sniper 3D is an interesting, attractive and totally free to download shooting game. However, compared to the current market, this game doesn't have the breakthrough to become a noticeable phenomenon in the gaming community. But on the other hand, it's also fun, suitable for relaxing after a stressful working day. hours
