Keep up with the latest daily buzz with the BuzzFeed Daily newsletter! Keep up with the latest daily buzz with the BuzzFeed Daily newsletter! Last Sunday, Twitter began offering advertising services to countries in North Africa and the Middle East, including Egypt, Pakistan and the United Arab Emirates. Reuters notes that digital ads are underdeveloped in this part of the world and account for only 4% of total advertising spending. Twitter’s VP for International Operations also notes that its subscriber base in the Middle East/North Africa had already tripled in the last year, creating a new user base to exploit. In mid-2012, Twitter extended its advertising efforts to 50 more countries. [Image: Flickr user sallyseashells] The divergent and disparate comments of US and Japanese businessmen on “Trading Places” (Face-to-Face, July) reflect the divergent comments and U.S. and Japanese businessmen’s disparate appearances on “Trading Places” (Face-to-to-Face, July) reflect reality. My experience as the head of a small company exporting to Japan in the 1970s was very positive.We had no difficulty forming a joint venture and two wholly-owned subsidiaries in Japan. We found no evidence of any attempts by the Japanese government to exclude our products, although learning how to handle the complexity of Japan’s distribution channels and marketing methods has been quite difficult. More recently, a small client company opened a subsidiary in Japan; it soon grew as its parent company. Northern Telecom, a Canadian company, reported that it did not take longer to get its products approved by NNT in Japan than by AT&T here in the United States.Learning to do business successfully in Japan is not easy, but those who turn their backs on Japan do so at their own risk. Without a doubt, this is the quintessence of Maine: as you go up the coast towards Canada, the peninsulas seem to shrink, leaning more and more into the sea. Fishing villages are getting smaller; lobsters are closer to the water. If you find the time to drive to the edge of the coast, south of US 1, let it go.The star of the central coast is Mount Desert Island, home to the spectacular Acadia National Park, where the mountains meet the sea. It offers some of the best excursions on the Maine coast. Attractions on the island include the bustling summer resort of Bar Harbor, the elegant village of Northeast Harbor and the heart of Southwest Harbor.For quiet walks and traditional coastal villages away from the tourist crowds, continue along the coast from Bar Harbor to the rugged cliffs near Lubec, the last town before the Canadian border. Photo courtesy of: As most of the world continues to deal with COVID-19, people in East Africa are facing challenges on several fronts. Kenya, Uganda and Ethiopia are experiencing crushing swarms of locusts, and crops that people need food are being devoured before they can even be harvested. It also seems likely that these swarms will soon migrate to neighboring nations. It’s hard to say how much damage these huge insect clouds will cause, but by studying the conditions that allowed the population of the booming locusts, scientists hope to predict the extent of the damage ahead of time and find plans to mitigate it. However, it is difficult to implement a large-scale plan to combat these threatening insects even at the best of times, let alone during a pandemic. The first important question to ask about this infestation is what caused it. Locust swarms has been a recurring problem for farmers in Africa and sometimes even Asia and Europe since recorded history began. In fact, historians in Rome, ancient Greece and elsewhere have commented on the intermittent scourge of locusts over the centuries. Photo courtesy: Laika ac/Flickr The locust most associated with swarms and devastation is the desert locust, gregarious Schistocerca. This particular species is uniquely dangerous due to its size, feeding habits and unpredictability. A single square kilometer swarm is able to consume several hundred pounds of food in a single day. Their favorite target is to grow crops, which is why desert locusts are a significant threat to small rural communities: they can’t pick up their food early to keep the locusts from eating it, which means that all the village food can disappear quickly. There is very little regularity to locust swarms, although ecologists have theories as to why there are usually several years between swarms. The most likely answer is the amount of moisture in the desert sandy soil, which is where the locusts lay their eggs. Normally, the soil is too dry for more than a couple of locust eggs to hatch, which means they don’t have the numbers to form a swarm. However, the last few years have been exceptionally wet for East Africa. After the area survived several cyclones, floods and wind, the once-dry soil has been constantly humid, which means that more and more locusts have hatched and survived into adulthood. With so many locusts around, swarms are inevitable. A factor contributing to the increase in cyclone size, force and frequency is warming ocean temperatures, particularly in the Indian Ocean, which borders much of East Africa. As temperatures continue to rise around the world, cyclones and that come from wet soil can become more and more common in East Africa until huge swarms like this become a normal outbreak. We hope that lawmakers and humanitarian workers will be able to come together and create an action plan to address this emerging crisis. Humanitarian Humanitarian Humanitarian This is perhaps the best way for millions of Africans to avoid hunger during the summer and autumn of 2020. In March, USAID announced they would spend millions of dollars to help East Africans prepare against the swarms. The Food and Agriculture Organization of the United Nations (FAO) is also trying to raise \$76 million in donations to help the effort. Photo Courtesy: Department of Foreign Affairs and Trade/Flickr Since many people around the world who would normally be in a place to donate have suffered financial losses due to the pandemic, it can take a fair amount of time to reach that goal. Unfortunately, the longer it takes to sedate swarms of locust, the more damage they will do, and there is little that can be done to counter the rain that accelerates their growth. The pandemic is also causing more localized problems in solving the locust problem. After all, it is difficult to perform a massive spraying operation without drivers, but when everyone is self-isolating, it can be difficult to find drivers both at home and abroad who are willing or able to do the necessary work. Regional conflicts, such as the civil war in Yemen, also complicate the ability of governments to act. Locusts generally do not move through rainforests or high mountains, and do not go far into Europe. However, they have spread as far as the Caribbean, India and even Russia. While large-scale locusts tend to die in the end, leaving only their original range in East Africa, they can do enormous damage before it happens. This particular swarm has already reached 16 countries, including India, Iran and Jordan. At this point a further spread seems inevitable, and as the summer rainy season approaches, it is possible that these parasites will spread over much of North and West Africa. Photo Courtesy: Bernard DUPONT/Wikimedia Commons Still, the exact range of their potential destruction depends on what course of action the leaders of these countries and others around the world choose to pursue. Based on the destruction already caused by these insatiable insects, it is likely that more than 25 million people in Africa will struggle to find enough food during 2020 if nothing changes. While prevention is the most effective way to control locust swarms, time for them is largely past. In order to truly combat the coming plague, the restrictions will have to be lifted to allow pilots and pest control technicians to work around the clock. Of course, this will not happen until conditions improve or a COVID-19 vaccine or cure is implemented. This is bad news, and not just for East Africa, the Middle East, and East Asia. Locusts are known to fly through whole to reach new sources of vegetation. While colder climates are less likely to be affected, there is no telling how far the swarms of locust will reach before they are contained. Fortunately, a new way of dealing with locusts are being One example is a biopesticide that turns the spores of a fungus that naturally affects grasshoppers into a powerful pesticide that kills locusts and grasshoppers leaving other insects and people alone. Whatever happens, however, due to rising global temperatures, mankind will have to think seriously about containing grasshoppers as their swarms become more frequent. Gain a better understanding of the Middle East with these articles on news, politics, issues, culture, media and more. Credit: Rare Brick Every year, as the days get longer and the last remnants of the final snow begin to melt, classic northeastern seaside towns like Nantucket and the Hamptons come to life. But the approach of summer also means the inevitable flock of swimmers. Restaurants are impossible to get in, ice cream lines run all over the block, and you’re lucky if you have enough beach space for yourself, let alone a towel and umbrella. But don’t be afraid. There are a myriad of trendy or recently refurbished hotels located in these coastal enclaves and your perfect summer vacation without crowds is just a few hours north on I-95. For those looking for a more relaxed alternative, try visiting some of these hidden seaside resorts. For example, Shelter Island, New York, the coldest neighbor of the Hamptons boasts all the coastline views and the style of the most popular summer hotspot, but with a quieter and, some might say, more sophisticated atmosphere. Madison, Connecticut, meanwhile, boasts trendy boutiques and pristine views of the Long Island Sound. And then there’s Castine, Maine, with its fabulous food and rich marine history.In another way: these places are where to go for the same New England charm par excellence and fewer people to meet while eating a fresh lobster roll. Credit: Frank Heuer/lat/Redux Accessible only by ferry, Shelter Island, the quiet Hamptons neighbour, is the perfect seaside retreat. The island is located between the two forks of Long Island and is known for its pristine beaches and beautiful manor houses. This summer enclave retains its rustic charm with a population of less than 3,000 inhabitants and a third of the territory preserved by the Nature Reserve. Spend the day or bask on the beaches or try sailing (a Shelter Island rite of passage) on a sloop around Peconic Bay. Advertisement Advertisement Credit: Courtesy of Sunset Beach If you’re looking for a place to venture out for a first paddleboard trip, followed by lively music and summer cocktails, then stay at the Sunset Beach Hotel. This trendy boutique hotel in Andr   Balazs   offers stylish rooms, all with private terraces and views of the pristine beach, as well as amenities such as kayaks, bikes and Kiehl’s. Just on the road from Sunset Beach lies the intimate and charming Shelter Island House. The elegantly 19th century style hotel has 11 rooms with coral print coral and a series of modern art, which encloses the perfect coastal retreat. Have an IPA ice cream in the tavern after a long day at the beach or take an evening swim in the outdoor pool. Credit: TravelCollection / Alamy Stock Photo Long Beach is a strip of undulating sand dunes and its newly reconstructed waterfront, ideal for escaping the crowds and heat of Manhattan during the summer. Once home to mafioso Michael Corleone, Long Beach has evolved into a lively coastal retreat, but it still retains its roots (think fried clams, fresh bagels and Italian ice cream). Just a 45-minute train ride from Penn Station, the Barrier Island is teeming with classic restaurants and quirky shops. Leave your car for a bike so you can easily cruise along the waterfront and drive around the city. Advertisement Credit: Jordan’s Lobster Bar Due to its proximity to Manhattan, hotels in Long Beach are scarce, making it a great day trip. However, if a relaxing day on the beach isn’t enough for you, then turn a blind eye to the Allegria Hotel. Located directly on the waterfront with clean, modern interiors, this relatively new hotel will let you rest and refresh for another day of summer fun. Just above the Long Beach Bridge is the Jordan  s Lobster Dock. This hidden gem remains one of the favorites of Long Islanders looking for fresh lobster rolls and crispy fried clams or a classic shrimp cocktail with their dynamite cocktail sauce (be careful: it has a kick). The restaurant overlooks a pier where you can watch the fisherman bring in the daily caught. If your gourmet greedy craves an afternoon treat, grab a soft dish with sprinkles at the famous Marvels. Credit: Stan Tess / Alamy Archive Image Hidden on I-95 between New York and Boston, lies the beautiful seaside town of Madison. Residents try to keep this coastal gem a secret, but recently word has spread about Madison’s idyllic scenery, trendy shops and fantastic restaurants. A short drive from downtown Madison is the Hammonasset State Park, with over two kilometres of pristine sandy beach overlooking the Long Island Sound. Credit: Courtesy of the Madison Beach Hotel The Madison Beach Hotel is the perfect place to relax while staying in the small seaside town. This elegant beachfront hotel has 32 rooms, many with balconies overlooking the water and a renowned spa, perfect for a relaxing stay.Since opening in 2010, Bar Bouchee has remained one of Madison’s best restaurants. The small and intimate space is decorated with the classic design of the French bistro, with tiled floors and woven Riviera chairs. The menu changes seasonally, but the the first indispensable are served all year round, including their substantial cassoulet, the nearby cocktail bar moxie emanates a lively and playful atmosphere, with funky decorations and traditional American dishes mixed with international flavors. dishes range from that pad to eccentric mash ups like bacon and andP.E.I. mussels Be sure to try one of the many homemade cocktails, with eclectic names such as “Hooch and Juice”. Advertisement Credit: Richard Cummins/Getty Images The small town of Mystic, Connecticut, will always be known as the place where Julia Roberts made her famous tied up on an apron as a waitress in Mystic Pizza. Yes, the legendary pizzeria is still standing, but Mystic has also cultivated its reputation as a gastronomic city with beautiful beaches nearby, ideal for a weekend vacation. Be sure to check out the wide range of boutiques and restaurants with the main line of Mystic  s. Credit: Courtesy of the Oyster Club The famous Whaler  s Inn is within walking distance of all the shops and restaurants of downtown and enjoys a sublime view of the Mystic River. The complex has five buildings, but the most sought-after rooms are located in the Hoxie House, where every corner is equipped with lush leather sofas and cozy fireplaces.With such a wide selection of restaurants, cafes and specialty shops, it’s hard to narrow it down to just one or two restaurants in Mystic. At the Old Mistick Village, you’ll find the best grilled cheeses and cupcakes at Bleu Squid. For dinner, check out the Oyster Club for some of the best seafood in the area or the Captain Daniel Packer Inn, a historic relic preserved intact since 1756, with dishes that match its marine atmosphere. The menu at the Oyster Club changes every day, but freshly-shelled oysters (considered among the best in America) are always available. At Inn, try lobster lollipops or half a roasted duck while sipping fresh beer in the cosy pub. Credit: Kevin Galvin / Alamy Stock Photo With a rich nautical history dating back to the 17th century, Newburyport is the coastal city par excellence with classic colonial architecture and quaint mom and pop shops. Once the main port for shipbuilding in the northeast, the small town is the ideal place for lovers of sailing. Don’t miss the famous Custom Maritime Museum, where an entire gallery is dedicated to meticulously crafted ship models. A 10-minute drive along the road is Plum Island Beach, where you can search for shells along the tidal stream or camp under the beach umbrella among the sand dunes. Advertisement Credit: Rare Brick Blue Hotel is the latest addition to Lark Hotels and should open early this summer with beach cottages.After spending enough time on Plum Island, try award-winning local favourite Brine for dinner. This restaurant not only serves fresh oysters from the market, but also specializes in a wide range of raw dishes and caviar. There’s nothing like eating fresh shellfish by the sea.For sugar lovers, the smell of freshly baked chocolate and strawberry cakes from the Buttermilk Baking Company is difficult when you visit Newburyport. The bakery’s legendary roast peach muffins have people from near and far lining up at their doorstep during the summer. The menu ranges from fruit to di in spring and summer for more hearty treats such as the bourbon pecan cake in autumn. Credit: Driendl Group/Getty Images Cars are scarce and bikes abound on this island. A short ferry ride from New London or Newport, this 7,000-acre cove is the perfect antidote to congested Nantucket. The northern part of the island remains untouched and is home to many species of wildlife that are rarely found on the mainland. On the south side, you’ll find the picturesque town of New Shoreham, home to most hotels and restaurants. This island may have a small population (around 1,000 inhabitants to be exact), but in the summer the small oasis comes alive with parties and sailing races. Credit: Courtesy of Hotel Manisses Hotel Manisses is the ideal boutique hotel, has one of the best restaurants on the island and is incredibly close to the famous Ballard Beach. The exterior of the 19th-century building is reminiscent of Victorian manor houses, and this year, all 17 rooms have undergone significant renovations with enchanting details such as golden mirrors and claw-foot tubs.Froozies Juice Bar & Caf  , born as a small fruit bar on the porch of a hotel, has exploded as one of the locals’ favorite spots for a refreshing smoothie or a classic Manhattan dish. Breakfast includes traditional New York boiled bagels or sandwiches with fresh eggs prepared with local ingredients. For lunch, homemade falafel and hummus are the perfect choice. With unparalleled views of the vast Atlantic Ocean, Eli  s Restaurant is the perfect venue for luxury dinners and delicious New England cocktails. Dark and Stormy should always be your favorite drink, pairing it with haddock wrapped in ham or brine chicken with apple-jicama chops. Advertisement Credit: Kenneth Wiedemann/Getty Images For a relaxed alternative to Chatham or Provincetown, but with the same charm as Cape Cod, Brewster is the city to visit. With fewer hotels and bed-and-breakfasts than its coastal neighbours, Brewster boasts tranquil beaches, dynamite seafood and epic whale watching. Credit: Courtesy of Ocean Edge Resort The great kahuna hotel in Brewster is the enchanting Ocean Edge Resort. The historic Victorian palace sits on a cliff overlooking the scenic Cape Cod Bay. At the Ocean Edge you will find many amenities and activities, with over 400 acres of land and a well-kept golf course, swimming pools, tennis courts and walking trails. Guests can choose to stay in the rooms of the palace or opt for a villa.Set in a Cape Cod-style cottage, Brewster Fish House’s menu offers a refined reinterpretation of classic fish dishes. Dinner appetizers include unique combinations such as lobster with kumquat crust topped with clementines or scallops served on a bed of polenta - Timo. Arrive early because the house of the fish does not accept reservations. Credit: pierre rochon / Alamy Stock Photo Translated as the «bel place on the sea», this seaside paradise is known for its picturesque barrierand its historical significance both as a colony of artists and as a fishing village. Closer to the rest of the East Coast than other popular Maine destinations such as Kennebunkport or Portland, the bustling city of Ogunquita is ideal for a weekend getaway. Not only does the creative enclave boast a myriad of galleries and boutiques, but it’s also home to the famous Ogunquit Playhouse, with its much-loved theatrical productions. Advertisement Credit: Courtesy of Cliff House This year, Ogunquit’s top hotel, Cliff House, underwent a complete transformation with extensive renovations and additions, including new dining rooms and enhanced guest services. Some of the new amenities include a caf   offering locally-produced blends and the Nubb  s Lobster Shack, which serves classic Maine dishes such as lobster sandwiches. True to its name, the hotel sits on a bald cliff with spectacular views. Cliff House is due to reopen in July.In Ogunquit, head to the Lobster Shack in Perkins Cove for the best lobster rolls. The lobsters are brought by the local fisherman and served fresh with a side dish of hot chips or French fries. If you’re not scratching doors for a sandwich, then sip their famous New England soup. Credit: Mira / Alamy Stock Photo Untouched sandy beaches may be scarce in this small seaside village, but Castine makes up for it with its many water activities and rich marine history. Kayaking and sailing are ideal for the calm waters and small islands of Penobscot Bay, making it the ideal area for exploring. There are also three historic military forts here, including the famous Fort Knox, as well as the picturesque Castine Lighthouse. Credit: Tim Henderson Once a residential residence, the rooms at The Manor Inn vary in size, but they all evoke the classic colonial style with fireplaces and four-column beds. A unique service that the inn offers is yoga classes that focus on the traditional Iyengar practice.Castine quickly became a smorgasbord of restaurants and pubs. For a sweet drink, try your favourite spot, MarKe  s Bakehouse, where you can enjoy freshly prepared fruit cakes or cupcakes. For cold Maine nights, sip a good beer at the Baron Pub and Wine Bar   A, an eclectic pub whose walls are decorated with portraits of celebrities ranging from Gandhi to Queen Victoria. The room is also decorated with various travel souvenirs, which will make you feel like you’re in a Kashmir bar instead of on the Maine coast. If casual dinners are calling you, the takeaway, Dudley’s Refresher, will make you crazy for fish tacos or poutines. Advertising Advertising
