I've seen a few testers with green wings. Is this related to artifact skins or something else? Reply With Quote. You can change wing color with Glyphs. There are glyphs to change wing color and one to make them tattered. Thank you! Does anyone have pics, all i have is ptr and i doubt the glyphs are even on there. Originally Posted by Kellorion. I like labymod when im not going to pvp and just have fun. It makes life a lot more easier. All depends on your preference. Joined: Oct 19, Messages: Likes Received: 1, The reason why I like Labymod better is that I like the cosmetics and the fun emotes that they offer. Which my favorite emotes are the dab and the infinity sit emotes.My favorite cosmetics on Labymod is the angel wings. Also, I like the health indicator that LabyMod has; Badlion does not have the health indicator sadly. Also, I like the Labymod main menu background better than Badlion's main menu look. Overall those are the reasons why I prefer Labymod over Badlion but it really depends on your liking and have yourself a wonderful day or night. Joined: Jul 22, Messages: 13 Likes Received: Not interested in the others because I find they offer too much lol. Joined: Mar 22, Messages: 39 Likes Received: Joined: Feb 26, Messages: 27 Likes Received: I prefer cosmic client and lunar client, but I'm prob gonna change to labymod since it is on forge and I need replaymod far raid edits.Discussion in ' Off Topic ' started by RepoSep 2, Nor should it be considered a company endorsed by Mojang, AB. Also, state why you think the client is better. Ex: I personally think that the Badlion Client is better than the Labymod because Or however way you prefer to write it I think badlion is better tbh -R3p0. Joined: Jul 25, Messages: 40 Likes Received: IAmSeriouslyBad likes this. Joined: Jul 22, Messages: Likes Received: 1, Joined: Jul 22, Messages: 93 Likes Received: 1, Joined: Jul 22, Messages: Likes Received: I personally use Badlion, but I haven't tried Laby. Does it have inventory see on it? Joined: Jul 22, Messages: 74 Likes Received: I like laby mod more. Using laby mod you can see the other players health which badlion doesn't have this feature. This is a really nice thing to have while pvping and knowing when to pot or keep fighting. Badlion is also a very good client and i use both, really just depends on which on i want to use. Joined: Jul 22, Messages: 43 Likes Received: Both are very good but I'd have to go with blc. You get way better fps with blc than labymod and I'd have to say that the blc cosmetics are way better capes are way cooler on blc then laby. Joined: Jul 23, Messages: Likes Received: Joined: Jul 22, Messages: 57 Likes Received: Hoio there! In my opinion I believe BLC to be the better one of the two. I also have the dragon wings which on labymod is significantly more expensive than on badlion.Labymod or Badlion ClientHave a great day!Hyperium Open Source Minecraft Client with plenty of features and customization. Hyperium addresses many issues within Minecraft that negatively affect performance and memory leaks. As a result, you should see a more stable game with a higher average frame rate and less memory usage. Advanced Customization. Control many features within Minecraft that are not normally controllable. Discord Rich Presence. Let your friends know what server you're on while playing Minecraft! Privacy Policy. What data does Hyperium Collect? When using Hyperium, the client and integrated mods send a few small pieces of information to a remote server in exchange for a temporary token for accessing data from Hypixel. This information is processed and used to determine if the client is out of date or if the client should abort the startup procedure.What we do with the data. The data is stored securely for analytic purposes. We will never sell or release the data collected from specific users. You may request to download your data at any time. All analytic graphs may be viewed on sk1er.GitHub is home to over 50 million developers working together to host and review code, manage projects, and build software together. If nothing happens, download GitHub Desktop and try again. If nothing happens, download Xcode and try again. If nothing happens, download the GitHub extension for Visual Studio and try again. By default all mods on the Badlion Client are not restricted and a user can enable any of the mods at anytime. By using this plugin you remove the ability for a user to activate certain mods or features of mods while they are playing on your server.This repository shows how to control this. If you have any JSON errors it will not load the plugin properly. This example config will fully disable the waypoints and minimap mods. It will not disable togglesneak mod, but it will block the player from using the inventorySneak and flySpeed features of the togglesneak and togglesprint mods. By default, Schematica printer cannot be enabled on servers. You need to specify that your server allows it using this API, like in this example .LabyMod ShopSkip to content. MIT License. I just wanted to take a quick opinion on which of these products are better. And also, feel free to comment your opinion! Joined: Sep 4, Messages: 24 Likes Received: Lunar is best bro. Use Lunar client. Druze and iFeast like this. Joined: Jul 23, Messages: Likes Received: So for me, really the only difference between the two is that LabyMod has damage indicators, and BLC has a more slick, clean look to it while LabyMod goes for a more vanilla feel. So it all comes down to personal preference, I guess. Feature-wise, most big clients offer the same stuff. So I think I'll be sticking with LabyMod for a while. YoureKindaSus likes this. Joined: Jul 22, Messages: Likes Received: Agree with the clean factor on the Badlion Client, but also Labymod's factors are so useful especially with PvP.
