Page 2 Bootstrap profile cards are perfect for setting up profile pages for apps and websites. A good profile page enables users to add images, edit profile settings, and share links to social networks like Twitter and Instagram. Profile cards are designed with these features and more. Whether you are setting up a business, personal, or social profile page, a Bootstrap profile template is the ideal choice. HTML & CSS Bootstrap 4 Profile Examples This article is a collection of the best free customizable bootstrap user-profile page templates. Bootstrap Profile Examples For Professional & eCommerce Pages Bootstrap Profile Card Hover Effect Author: dileepverma107 This profile template features a hover effect. When the cursor is placed on the profile pic, the data about the individual transitions into the image box. This option also includes social media symbols that act as links to the individual's pages. 90's profile card Author: Ondrej Barta This bootstrap profile page design has a 90's vibe mixed with modern looks. The card features personal details with beautiful streaks of color on both sides. Bootstrap snippet, profile with data and skills Author: John Doe A beautiful profile page designed with HTML & CSS script. Daily UI Ideas Author: Daniela Desira Made with: HTML, CSS This profile features an expandable sidebar user profile pic. It also has a sidebar tab that contains: music Player, direct messaging, and countdown UI items. Author: Camila Smith This profile page design was made with HTML & CSS scripts. It includes a sidebar user profile with a data toggle navigation menu. WoW your clients by creating innovative and response-boosting websites with no coding experience. Slider Revolution makes it possible for you to have a rush of clients coming to you for trendy website designs. Bootstrap snippet, bs4 seller cards Author: Dey Dey Here is a bootstrap 4 profile built with HTML & CSS. This is a great option for professional colleague pages. Bootstrap 5 user profile card with buttons Author: Upasana Chauhan This bootstrap 4 profile design is great for product/service profile pages. Author: Upasana Chauhan Here is a simple bootstrap 4 profile design that does not use JavaScript. safee-admin-dashboard Author: Aigars Silkalns With this bootstrap profile page design, the user can control his profile settings. It includes interactive charts and widgets that display the user's activity on different social platforms. CoolAdmin Author: Aigars Silkalns This bootstrap 4 profile template is great for an online store. This design shows stats and other info to the user in a simple, clear way. ElaAdmin Author: ElaAdmin This bootstrap profile page helps the user track their sales performance. It includes an order list that shows completed and pending orders, and a nav item bar with quick action tools like: Messages A search bar And notifications Bootstrap Profile Cards 2019 Author: Sahar Ali Raza This HTML/CSS bootstrap stylesheet features 3 user profile examples. These layouts are fluid and easily adapt to any screen size. For example, when viewed on a big screen, the cards are arranged in a gallery format, similar to Pinterest. Bootstrap Profile Page Author: Creative Tim This Profile Page example was designed for creative professionals. It includes a profile pic, a short bio, and social media profile links. Profile Examples For Personal & Social Pages Twitter iOS profile Author: Jonathan Ohino In this profile example, you can show the user's profile with basic details and a profile pic. This Twitter profile card also displays the user's following and followers count. Remix Challenge Author: David Jones This bootstrap 4 profile design features a variety of animation effects that are made with the CSS3 script. This example is minimal and the animation effects load quickly. Profile Card Author: Ali Shahab This profile template was built with HTML & CSS. It includes text, a profile pic, and social nav item icons. profile page concept Author: Oscar Beamish This profile page design was made with HTML, CSS & JS. Most of the UI space is reserved for images. But, space for text content is reserved to the right of the screen. An interactive hover effect is used for the images and a smart mouse pointer is also featured in this example. This template is ideal for short blogs and articles. Instagram like user profile cards Author: Dipendra This is an HTML, CSS, and JS code snippet. Dribbble Card Author: Alex Clapperton The Dribbble Card template is inspired by a Dribbble shot. It has room to add text and a call to action button. This design is great for making a mobile application's profile widget or profile page. Daily UI 006 - Profile Page Author: Chase Allbee This bootstrap profile is a large profile card and not a profile page. Similar to Facebook, suggested profiles can be displayed with this design. Freebie Interactive Flat Design UI / Only HTML5 & CSS3 Author: Javier Latorre López-Villalta Here is great HTML & CSS design. Profile Card Author: Muhamed Erdem This compact bootstrap user profile option is great for a social profile page. It includes buttons for others to follow and message the user. It also displays the user's: Name Location Profession And social media profile links 006 - Profile Author: Matthias Martin This profile activates with a hover effect. When the profile photo is hovered over, rings outside of the photo meander. Bootstrap Flat User Profile Interface UI Author: Ajay Patel This bootstrap 4 profile layout includes a profile pic, timeline posts, and more. Accordion Profile Author: Mohan Khadka With this bootstrap 4 user profile option, the accordion method is used to minimize the space required to display the content. A great layout for a mobile app. Bootstrap snippet, bs4 profile with timeline posts Author: Sean Ngu This HTML/CSS profile page is great for building a social page that features timeline posts.
