SAP Basis Training Material

What is SAP Basis?

SAP Basis Training Tutorial tells you about the basics configuration plus customization. SAP Basis is equipped to end users of SAP Basis in live SAP settings, but other can also utilize it who looking to make their SAP Basis administration talents to hunt then some SAP Basis jobs or consulting appointments.
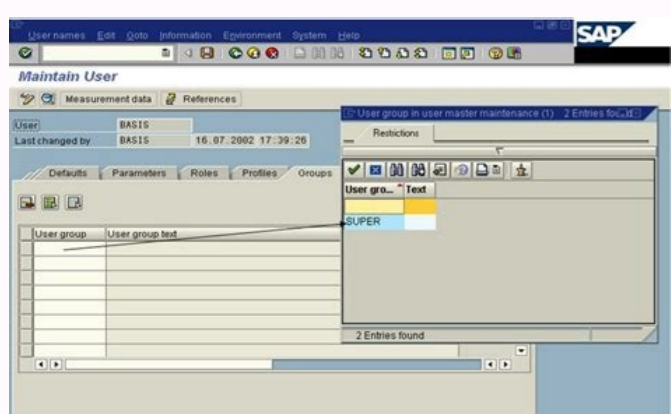

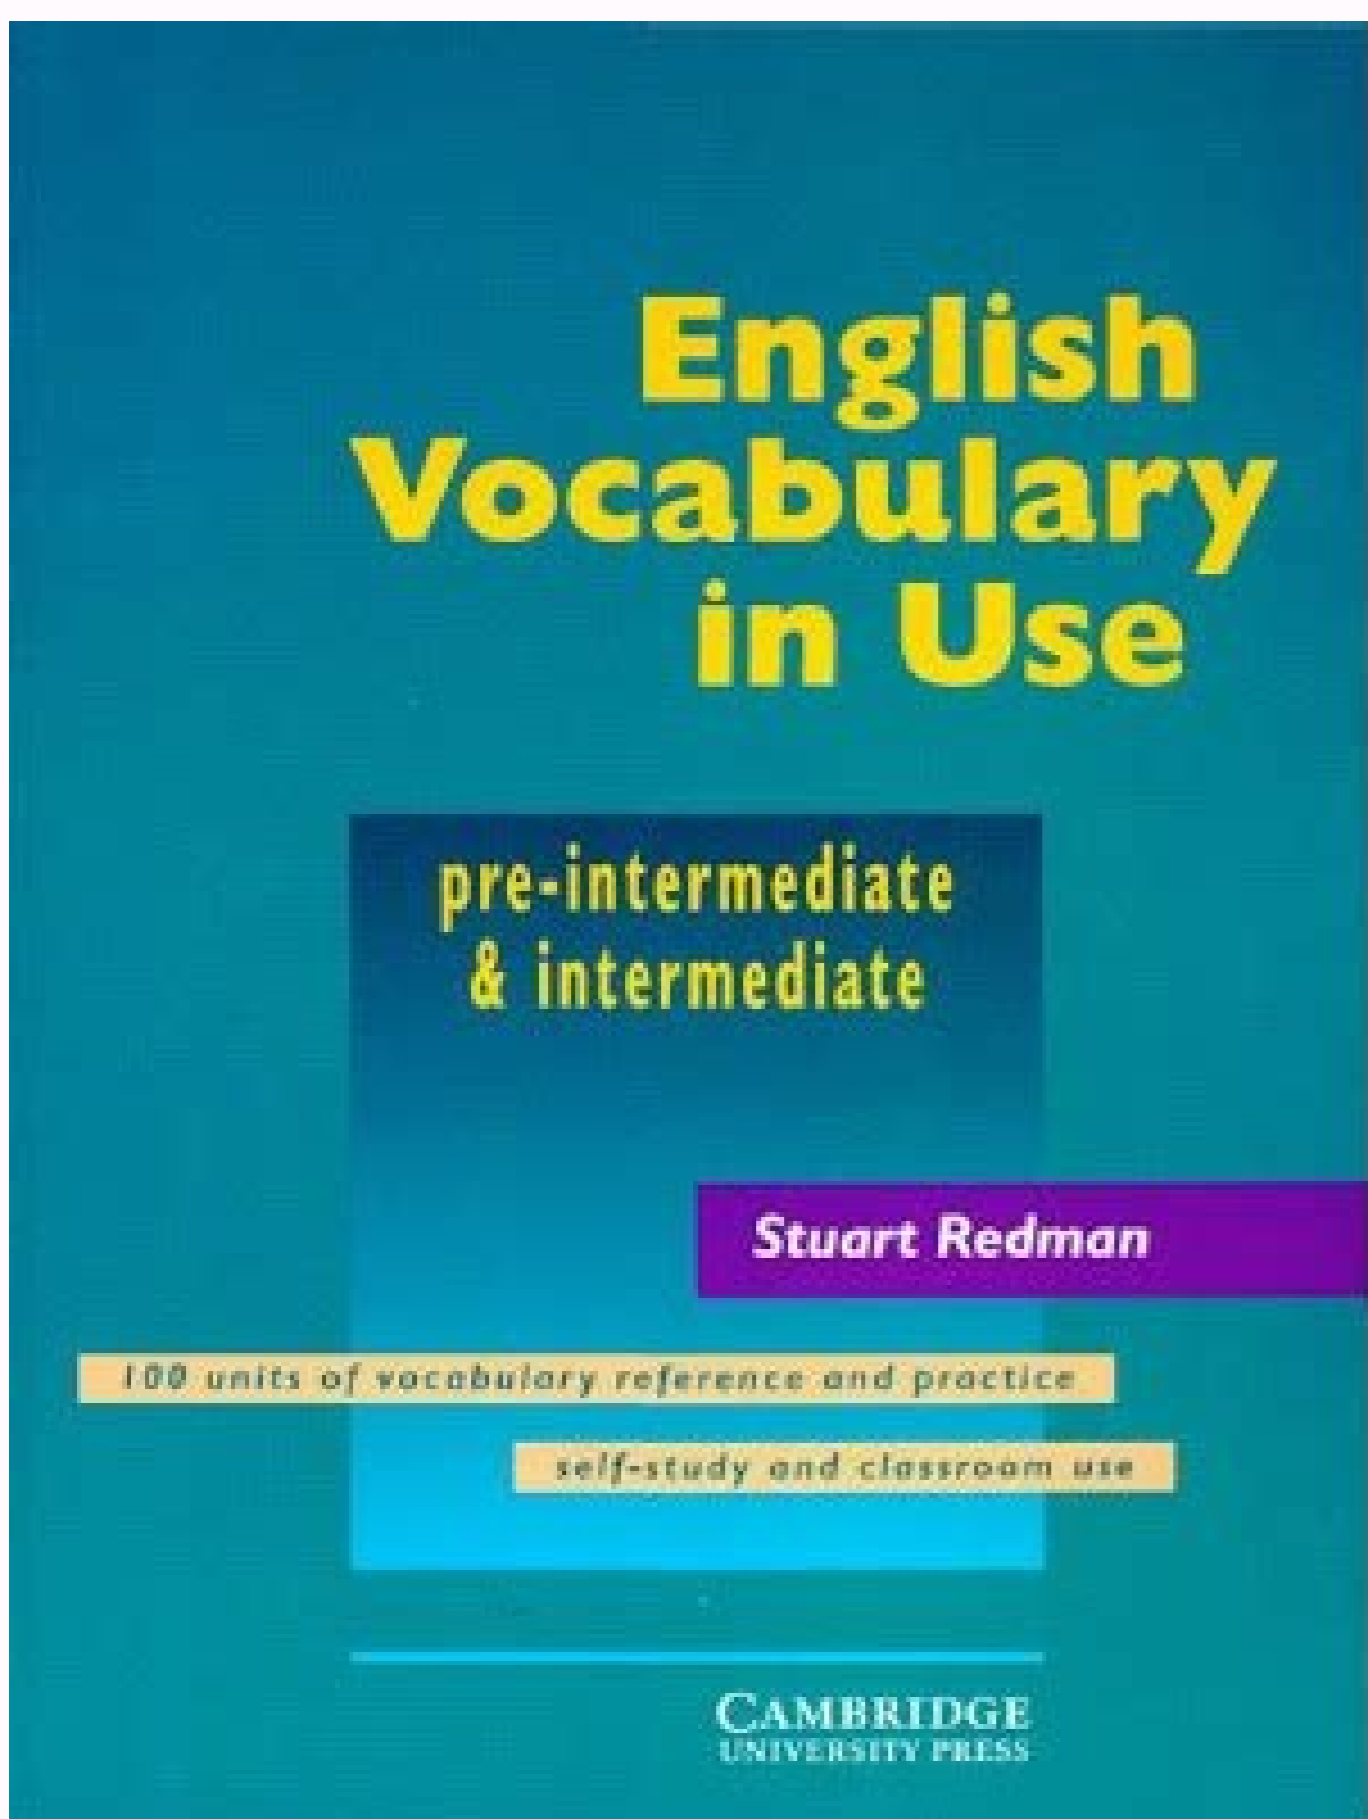

An important role of SAP Basis is to record or achieve data. So a user should start his training by learning why SAP Basis archiving is currently an obligatory element of the data lifecycle, plus read on SAP data archiving ventures. After that he should learn relatively particular skills, like as how to stock up archived SD/MM credentials, archive objects along with archive data accessing a development server.

SAP Basis Administration assists a user to automate his job and execute the work more proficiently. Subjects addressed in this consist of, the design of SAP R/3, system installing, how to execute an R/3 harmonized system copy, client management, printing, patch management, user management, transport management, configuration of distant services i.e., SAP router plus SAP Net and a guide to necessary administration, tuning as well as monitoring.

SAP Basis is a constitution of middleware programs and gears from SAP, the German group which wide-ranging R/3 creation is being utilized to aid administer big corporations. SAP presents the fundamental base which allows applications like as FI, CO, and HR, BW, etc. to be interoperable and manageable crosswise the operating systems together with database artifacts.

Some Security Components for SAP Basis

Each and every company that have implemented SAP must have integrated all their internal processes in respect of the SAP modules. This ability to integration leads to exposing their data to the un-authorized outside world. Security therefore is one of the most vital step for an organization that has implemented SAP. SAP Basis addresses these issues by incorporating security module. As SAP provides interoperability, it become very difficult for Basis Consultants to maintain the integrity of the SAP system.

And then I started to do MBA and now I'm in my final year. Keep blogging! Regards,Priyanka 28 June 2019 at 19:22 Govinda said... You need to demonstrate flexibility to recruiters like willingness to work in any location, any shift etc. Any job opportunity, you need to grab with both hands without worrying much about salary/compensation or company. 7 August 2019 at 22:31 DurgaPrasad said... Will do at the earliest 22 August 2017 at 19:59 Anonymous said... The project i am working currently has many new modules ..PI,SCM,TM,BOBJ,IS/DS. Hi Durga prsada,please suggest the steps of system copy and BD refresh. God Bless you and give you strength & Happiness in your Family. HI Durga,I would like to take up training in SAP Basis. 5 September 2017 at 17:55 Geeta said... Strangely , even in Expensive SAP press books i dint find in-detail information. Thanks a lot dude for your suggestions. Dear Patel,We have to two option to lock the user in SAP.1. Lock single user using SU01->write name of user-> click on lock tab.2. Lock multiple user using SU10 > write the names of user-> click on lock tab you can also lock multiple user using EWZ5 tcode. IF you are fresher.. Su01 lock/unlock single userSu10 lock/unlcok multiple users 5 June 2017 at 20:54 Unknown said... 28 December 2016 at 00:31 ERP Training said... I have been struggling to learn concepts on my own (As many institutes that i joined have half knowledge and misleading) till date, doing my own R&D on my desktop, ofcourse with the help of Forums and blogs like yours. almost your blog is incomparable and if is possible then please add the blogs of solution manager also. at least till you get enough experience in SAP Basis. this blog is really super excellent mind blowing i took each and every concept xerox 18 March 2014 at 09:09 yektek.com said... Thanks in advance 14 September 2015 at 11:03 Unknown said... Hello Sir, can u tell me confidently how we can confirm if a parameter is static or dynamic. This comment has been removed by the author. Hello Sir Thanx a lot to do incomparable work and provide a lot of thing under single roofplease if possible then share the installation of SAP at window and discuss with the logs create while installation.Thanks 8 March 2016 at 23:12 dhileep said... Ok Sure ... 8 November 2016 at 20:11 Swapnil said... said... Thanks ManReally, it's very help full.If it's possible. 30 December 2013 at 16:41 Anonymous said... Hi Durga garu, Please post java stack related docs.... This is the best comment i have seen so far on the blog. Hi Prasad garu can you post docs relating to SAP NETWEAVER like java tools 15 July 2013 at 15:59 Unknown said... Hi durga prasad garu good information to all . nice post Latha 28 February 2014 at 09:36 Anonymous said... 30 July 2016 at 21:07 Anonymous said... plz sir. hi druga prasad sir your blog is very useful for so many people. 3 August 2017 at 10:15 Unknown said... 2 July 2013 at 11:34 Praveen said... 18 December 2019 at 12:49 Unknown said... Hi Durgaprasad,I am fresher in BASIS.. Do you have any youtube Channel? Let me know the details to my mail id regarding when the next batch starts? my email id is:thambaeee@gmail.com 31 August 2017 at 10:00 DurgaPrasad said... I want to ask if you can post homogeneous and heterogeneous system copy/refresh step by step guide. very useful information swathi 4 February 2014 at 13:35 Anonymous said... Hi Sanjeev .. Of course, once you get sufficient real time exposure, then you can actually look for desired location/compensation/shift etc. please doc for SAP GUI installation and HANA ADMINISTARTION too. All basis concepts explained in such a nice way that even a beginner can understand.Keep going. OS installation3. Could you please tell me the difference between System Copy and System Refresh?Would appreciate your help!Thanks,Sajida. System refresh means by copying one system data (all clients data) we are setting up another system.Client refresh : 2 typesCopying a client from the same system (local clientcopy)Copying a client from another system (remote client copy.So, main differnece between system refresh and client refresh is "In client refresh, we copy only particular client where as in system refresh, we copy all clients i.e whole database data). sir, Really I like your post on sap video tutorials. I would suggest you to network with other Senior sap basis consultants or project managers who are working in different companies and request them to let you know incase of any openings. hi dude,could u please provide system copy/db reresh steps... But little dilema about what module in sap to choose?please guide me.Thanks. How to configure ? I found your blog very interesting. Hello. i have one question i.e SAP ERP ECC6.0 EHP6 upgrade to ECC6.0 EHP7 can u please provide this document i search lot but i didnt get the correct information......iam requesting you please provide the PRESTEPS, PROCEDURE , POST STEPS...i hope i will get answer from u...thank you sir 28 November 2016 at 21:21 Unknown said... Hi sir nice post, this is one of the best blog thank you 6 January 2014 at 16:20 Keylabs SAP training said... 13 December 2019 at 12:36 Anonymous said... If possible can u post/update SMP & HANA related topics aswell.Thanks , Reddy. i always refer it.can we have something about LDAP configuration. Hi Prasad Garu,First of all i would like to thank you and appreciate you for taking your valuable time in publishing crystal clear information for SAP Basis folks. I would appreciate if if you can guide me through is it worth doing a course because I have seen many post online where people are telling, Freshers don't job in SAP even also even after doing Certification from SAP Certified centres. 30 October 2015 at 18:11 Anonymous said... hi sir, your explanation is rocking, please post the articles about how to configure ewa in solman & charm configurationThanks in Advance 1 July 2015 at 00:05 DurgaPrasad said... Hi broPlease let me know, how to check the ABAP dumps and how to solve all dumps in SAP.Thanks in advance,NagRaj. please provide Ur contact number & give me a chance to meet me sir thanks@ards 3 April 2019 at 11:11 Anonymous said... your blog is just awesome and very helpful! 25 February 2014 at 20:17 Anonymous said... 27 August 2012 at 11:07 sudarshan said... Welcome friend! 20 June 2013 at 17:10 Soma Biswas said... Not only SAP Basis, getting job in any technology as a fresher is very tough due to limited opportunities and vast competition. i need some client related documents ex-client export n import , local client copy , and remote client copy procedure . It is really great work.Could you please provide us with some information on the below queries How to Install SAP Oracle Instance?How to Install SAP database instance?How to Install SAP dialog instance?How to install SAP GUI on unix? Thanks in advance. Will try to focus more on netweaver aswell. hello sir.Myself shiva. Hi Durga prasad,If possible then plz add installation step of all application with screenshot.1. SAP Installation2. Yes sir please provide document in Ur blog 30 March 2017 at 10:41 Anonymous said... Good question 20 August 2016 at 16:12 Subbarao said... 16 March 2013 at 18:07 Anonymous said...
