Even when you reach fluency in French, youcÁÁÁll probably still need to look something up from time to time. I know I do! But how to choose the right one for you? To give you some ideas, herecÁÁÁs our selection of some of the best print French dictionaries and French dictionary apps out there. The best French-English print dictionaries and apps Here, in no particular order, is our choice of the best French-English dictionaries in print and app form. Collins-Le Robert Concise French-English Dictionary Format: Dictionary app ItcÁÁÁs hard to find a French dictionary app that garners praise beyond customer reviews, but this one crops up on many lists of the best French dictionary apps or essential apps for French learners. ItcÁÁÁs even the subject of aÁ Ápersonal blog entry. The Collins-Le Robert is a standard even in the print dictionary domain. It contains more entries than most of the other French dictionary apps out there, although theÁ ÁAndroid versionÁ Áseems to have more entries than theÁ ÁiOSÁ Áone. Price: \$14.99+. Offline?: Yes. Collins Robert French Unabridged Dictionary, 11th Edition Format: Print dictionary This massive, unabridged print French-English/English-French dictionary has a special place in my heart. ItcÁÁÁve had my copy (albeit an older edition) since I was a teenager learning French. It took many transatlantic flights with me in the years before I finally came to live permanently in France, which often caused my bag to be overweight! Today, I still use it when ItcÁÁÁm working on tricky translations or looking for a thorough definition of a word. Price: \$44.00-55.00. Check for sales and promotions on HarperCollinscÁÁÁ website. English-French Dictionary by Larousse Format: Dictionary app This is another classic staple forÁ ÁAnyÁ ÁAmodern-dayÁ ÁFrench-learnerÁ Áand includes more words than the Collins-Le RobertÁ ÁApp, which

is especially important if you're going to use your app for reading in French. Word Count is the same for Android and iOS versions, which is pleasant and highly reasonable. On the other hand, unlike Collins-Le Robert, this application seems to have verbs conjugation tables, instead of a complete conjugator, which can explain the lowest price. Price: \$ 4.99. Without connection?: Sâ. Asce Format: Dictionary app while the first two French dictionary applications on this list are cornering stones, asce I seem to be the young premiere. But if you want to carry your French oral and aural skills to another level, you should think about downloading or using a French pronunciation dictionary. Most of the French pronunciation dictionaries have individual words recordings, but several offer prayers or even complete texts. Some of these applications also have interactive elements, such as asking native French speakers to pronounce particular words or phrases for you. Benjamin reviewed several French pronunciation dictionaries in this article. The confrontation for him was Forvo, who has the majority of the entries of any French pronunciation dictionary. Available for iOS and Android, or even simply usable through its website. Forvo has individual words audio, as well as some prayers, that interactive capacity that mentioned above that allows him to ask for native French speakers to pronounce something, and even French lessons. Some disadvantages of the dictionaries printed in French-English s/veso Be heavy à € à € ·If you want to take them to some side. So, would you have to obtain a dictionary printed in French or an application? For me, the answer is ... so much! I love using French dictionary applications as a reference for words, but I am also very happy to have my Harper-Collins French/English dictionary in English without glazing. I get the best of both worlds, and since my dictionary application costs nothing, it is like obtaining two for the price of one. Two French references, or even two, can be an excellent way of verifying different words or phrases, or finding information (for example, etymology) that is in one but not in the other. So, why not take advantage of the old school and the screens of the new school when it comes to its French resources? Does it have a French Dictionary application favorite or dictionary of pronunciation? If you do, I would love to know in the comments. If not, I hope this list is a good jump to find the perfect for you!
