The other players will destroy them if they are not careful in Paperio 2. A wrong step and the game ended up for you. To mark your statements on the map, a area of area simply circles. It doesn't matter whether the earth that you try to conquer is neutral or belongs to another player. If you can surround it, you will claim it for your empire. Obviously, other players can do the same with them and take part in their territory. Have fun with paper. Paper.io 2 is the continuation of the game for mobile phones, which is probably popular by people from all over the world. The simple premise, the impeccable execution and the high optimization have made it extremely attractive for the enthusiastic players and occasional users, the devices of which are not always equipped with the latest hardware. After all, it is indeed an informal game: after all, put only a color square on a sheet of white paper to cover it with color and effectively identify the conquered areas. Start the line somewhere outside your region, do the whole tour and the drawings you will belong to you. The difficult part is to avoid enemy attacks: a piece of land can be conquered as easily as several players, so the result of the round depends exclusively on the ability, intelligence and strategy of all topics involved. In order to continue to complicate things, Paper.io 2 is also a browser game with which laptop and desktop users can have fun everywhere. Even if you are not connected to the Internet, a player can enjoy the same mechanics, only that he would compete with the IA. It could be less intense, but it is still a great way to spend time when they are bored. Under thousands of games, this is noticeable by the tight gameplay that combines action and tactics. It also helps the fact that the graphics and the playing style are inspired by some of the most famous classic Arcade games. Basically, you can be a homemade mother, a hardcore MMO player or a computer student: it is likely that you enjoy the experience and enjoy the multiplayer battles. What started as an independent game has become a world phenomenon and paper. IO 2 is his legitimate successor. The graphics are still colorful and liquid, the controls are reactive and the gameplay is better than ever. Now it is the perfect time to take a look at it if you haven't done it yet! Over and beyond! Over and beyond! More territory! Get everything with a new fantastic game -3D This game concept is related to the old Xenix released in 1984. Just like any other IO game, you and your enemies are out to beat you. But of course you win :) Conquer their territory and destroy your enemies, but be careful, your tail is your weak point. This game is very fun and has nice paper graphics and smooth animations. Enjoy! You can play Paper.io online and offline on mobile and desktop. Download paper.io and join the global gaming community. Control a small board and conquer the territory of your competitors. Paper.io 2 - here is the continuation of the popular game. Conquer new territories and become the king of the map! The more places you win, the higher your rating and score will be. You have to act and think fast. Create your strategy and action plan. Paperio has simple rules, but it's addictive in its simplicity. There are also competitors on guard. Beware of the queue. The game is addictive and allows players from all over the world to participate from home, work, campus and even the office! Join the game, strategize and become the overall winner. Have fun! Paper.io 2 Teams takes the world's most popular multiplayer io game to a whole new level. Now you can claim territories, defend your country and attack other players with a team of friends from all over the world! The fights take place on a giant paper wheel that represents the globe, so the stakes are higher than ever. Can you paint the world your color, defeat your enemies and dominate the server? All your favorite mechanics are still there: draw a line as you move your character and add a piece of paper to your territory; when ready, the line will automatically be captured and painted in your color. Enemies will try to do the same, but you can fight back by breaking through their lines before they run out, destroying the unfortunate opponent as well. Be careful not to fall into the same trap - always try to stay close to the paper terrain and work with your teammates to add smaller pieces of territory at a time. Keeping track of your team's progress is easy thanks to the graph in the lower right corner that shows the percentage of territories occupied by players. To ensure victory, cooperate with friends, eliminate opponents and get 100% of the paper globe. See you in Paper.io 2 Teams online battles! Welcome to an exciting new addition2 Universe - World Conflict regime. Name the challenge of other players from all over the world in an uncompromising fight for the area. This time, every player will represent not only yourself but your whole country! Knead the ground in the usual paper style, just remember that every detail will complement your homeland appreciation. The more users play in a particular country and the best they are, the more they will be the leading lists. The movement is automatic - you just have to choose the right direction. When the character leaves, keep the area, defining the circle (or closing the line if you close the line) with color. If someone crosses the road drawing a line, you will die and you will have to start again. You can do the same with other players, just be careful not to last. Are you ready to show the world how strong your country is? It's time to play in global conflict mode, enrich your homeland and defend it from invaders! Close the window
