

Xperia camera apk

Continue

Sony Xperia Mobiles has launched all-new Sony Xperia Z2 phone. It's an impressive phone with amazing specifications, unlike Xperia Z, it's meant for budget range peoples. Xperia Z2 includes a pretty good number of specific apps and if you ever had got hands-on with Xperia Z2, you would love its launcher, we have come up with Xperia Z2 Home Launcher apk app download. Here in this guide we go through how you can download Xperia Z2 Camera App by downloading Xperia Z2 camera apk, followed with instructions on how to install on any Android phone. Sony Xperia Z2 Camera is available for download and uses it on your existing phone. The XDA developer named Omessy7 has ported Xperia Z2 camera app to various other Xperia devices. So if you are in the world of Sony and love the newly released Xperia Z2 camera features, by installed the ported app apk you can get it on your phone. This Sony Xperia Z2 Camera apk is compatible with most of the Android phones. This app is compatible with most of the Sony Xperia phones running Android 4.3 Jelly Bean and higher. Some of the features also work on Xperia phones running on Android 4.1 Jelly Bean as well. Xperia Z2 APK Features - Creative effects adds colors, mirror images and minor effects to photos, videos Background defocus upon when the photo is taken to show up only the main part of the photo AR effects mode when enabled adds fun animation to photos and videos Timeshift videos recording with editor captures 120 Frames per second You can download it from here - Download Xperia Z2 Camera APK Download Background Defocus apk Download Xperia z2 bdefocus Unroot.apk Download Some Camera Widget.apk From version: Sony Camera 2.7.1.A.0.12: Xperia L4 was released recently and now we have a working port of GCam for Xperia L4 available to download. The compatible Google Camera port(s) are brought to you by BSG. Available GCam versions for Xperia L4 Below are the available version(s) of GCam APK for Xperia L4 The GCam 7.3 version(s) bring Astrophotography mode and better night sight pictures to the Xperia L4 along with other older features such as HDR+, Time lapse, portrait mode etc. The available GCam ports are compatible with Android 10. Status of this Xperia L4 Google Camera WHAT'S WORKING - All basic features KNOWN ISSUES - Nothing reported yet How to Install Google Camera on Xperia L4? Download any GCam APK file from the above download link(s). To install apps from a third party app other than Play Store you need to enable app install from Unknown Sources on your Android device.For Android 10 version, enable Install Unknown Apps from the app from which you are going to install the Google Camera APK.For example: if you have downloaded the Google Camera apk file on Google chrome or firefox browser on your phone. Or you have downloaded and copied the apk file to the file browser and you want to install it from there.Go to Settings > Apps & notifications > Open the app (Chrome, Firefox or file manager app etc) > Install unknown apps and enable Allow from this sourceSee the below screenshots that enables to install unknown apps on Pie for Chrome app (you need to enable on the app from where you want to install the apk): Once enabled, click on the downloaded app to install. Once installed you can clear the app data and open the app and enjoy the feature packed Google Camera APK on Xperia L4. How to shoot in astrophotography mode? Google Camera version 7.0 and up comes with Astrophotography mode by default, but there are conditions that must be met to enable astrophotography mode. Usually, following conditions must be met to capture in Astrophotography mode if manually not force enabled: It can be enabled on Night Sight mode (only) The phone must be kept static (use a tripod or keep the phone somewhere to keep it static) There must be low light condition It may take few seconds for this mode to come up when the above conditions are met New features are keep coming on the Google Camera APK, hence there could be many versions of these ported apps for Xperia L4. This page will always have all available working Google Camera for Xperia L4. Visit the following link for Xperia L4 updates on other Google Camera, Custom ROMs and all other device specific topics. Never miss a moment with Google Camera, and take fantastic pictures using features such as Portrait and Night Sight.Features• HDR+ with dual exposure controls - Take pictures using HDR+ to capture fantastic photos, especially in low-light or backlit scenes. • Night Sight - You'll never want to use your flash again. Night Sight brings out all the best details and colors that get lost in the dark. You can even take photos of the Milky Way!• Super Res Zoom - Super Res Zoom keeps your pictures sharp when you zoom in—without the blur. • Top Shot - Pick the perfect moment with Top Shot. Automatically recommends the best pics, where no one is blinking and everything looks just right. • Portrait - Add elegant background blur (bokeh) to pictures. Google Photos can also make the subject of your photo pop by leaving them in color, while changing the background to black and white. • Google Lens Suggestions - Point your camera at QR codes, business cards, paper documents, or foreign text and it'll help you read, scan documents, translate, and more. • Playground - Have fun mixing the real world with the virtual through AR stickers and effects!Requirements - The latest version of Google Camera only works on Pixel phones released after 2016, running Android 10 and above. Some features are not available on all devices.Permissions• Camera: Required in order to capture pictures and videos. • Microphone: Required in order to record audio with every video. • Storage: Required in order to save picture and videos. • Location: Required if you would like to record location information with your pictures and videos.
