Develop a plan E acÃ§Ã¡ the emerggÂªncia for your home, including what to do in case of incÃ¢ndio, storm, power outages and lack of water. F. explain how to obtain Ã¡gua potÃ¡vel in case of emerggÂªncia. 2. Explain how you would get Medical Assistance © emerggÂªncia tip A. From his home called 911 Ã© the simplest and most efficient way to reach clinics Solutions of emerggÂªncia from home. When speaking with an operator, informÃ¡i them your name, address, nature of the situaÃ§Ã¡ E emerggÂªncia, along with any other details that could be for clinical workers. Stay on the line until the help comes here and also do not forget to leave the vast ignored. Poison control can also enter a confianÃ§a adult of his plans. Tell them Tripa s place as well as the expected E duraÃ§Ã¡ so in a cenÃ¡rio of emerggÂªncia they vÃ¡ E o certainly be able to call as excavation © m dispatching rescue Solutions for you. Normally, you will definitely be able to call workers from E situaÃ§Ã¡ the emerggÂªncia by cell phone. However, if you Ã© unable to fazÃª it still sÃ¡ E enough prÃ¡ximo civilization Ã© E o, you need to send people back in vehicles requiring the phone nearest help. If you lose, do E leave your vehicle or camp. Since the greatest things sÃ¡ E the most likely to be found by rescuers, this Ã©, signs of fire should be used only as Ãºltima option the E. NÃ¡ E o start a forest incÃ¢ndio. C. Activity in clear waters are open to each vessel needs to be equipped with a Marine VHF radio that can be used for contact A Assistance emerggÂªncia the channel # 16 in the Look further Ã¡gua trafficked, as well as a signal for help if the boat can be moved. Traveling an inverted flag from a E embarcaÃ§Ã¡ the Ã© a signal around the world for the E afliÃ¡sÃ¡. Sign for them lighting torches or using fumaÃ§a as saviors sÃ¡ E o visÃ¡veis. Read Tamba © m: A NecessÃ¡rios guide mÃ© © rite badges 3. Define the term screening In a situaÃ§Ã¡ the E where many people is the E wounds, screening describes the process of discovering the navel of lesÃ¡pes each individuala E It is then to prioritize the processing order based on gravity. Essentially, youÃ¢€¦ ll E E analyze the damaged qua each of the targets sÃ¡ E. E Enta the handle those with lethal lesÃ¡pes before those with minor injuries to one of the indivÃ¡duos can survive. When there are inadequate health workers to ensure most survivors, this Ã© made. To properly screening, you should first assess the problem targeta s. All these four elements: AirwayBreathingCirculation / Eat / ConvulsionDehydration (severe) if the patient © critically endangered in any one of Ã¡reas, which considers a emerggÂªncia (E) A E o situaÃ§Ã¡ obtain early therapy possible. If the victim estÃ¡i showing symptoms they seem on the E being immediately sÃ© river, they sÃ¡ E o considered as a Ã© priority (P). A as excavation © m to therapy aft cases emerggÂªncia. E the urgent problems in the sÃ¡ E placed in a queue (Q) m A as excavation © E sÃ¡ the treated aft relate to the situations. 4. Explain the universal precautions contact with body fluids may result in the Transmit E patÃ³genos. These virus can cause diseases as excavation © m Infection E o. Should always lÃ¡quidos body treat with caution and use Security barriers to prevent contact when viÃ¡vel. Never use the E mÃ© the unprotected to prevent bleeding, as this may put you as excavation © m the patient at risk of Infection E o. Ensure after providing treatment emerggÂªncia to disinfect or Safely dispose all things poluÃ¡das and thoroughly washing with the soap mÃ¡ E E o. For others in the infectious E, waste.Avoid bioÃ¡gicos be placed in labeled containers or unloaded twice before disposal. 5. FaÃ§a the following two things A. Prepare a first aid kit for your home Scouts will need to prepare a residaÃªncia treatment kit emerggÂªncia to bring with them the course. Scouts need to use the First Aid Badge of hand © pamphlet rite for help in understanding the components of a HouseÃ¡ advised E s first aid kit. B. Inspect your Troopa s first aid kit Take the time to consider what this emerggÂªncia treatment set includes wing © m comparÃ¡i it to any set that you or your troop can already have. The above image Gives you an example of what you can normally find in a first-aid kit Each of the materials consisted are not labeled by numbers. At the minimum, the set that you buy should be equipped with: Gauze Bandages Pads MÃ¡scaras Sting Relief Elastic Bandages Anti-Series PTICO WIPS WIPES CPR MOLESKIN Blister Covers Security Pins You can inspect Treatment Package Emergency Your ArmyÃ© S against this list to see if anything should be included. Keep in mind Content your first aid packagea s every few years as some things go out. If you need brand-brand new products, the emergency treatment pack that I certainly connected to the previous one has every little thing you may need to be fully prepared. 6. Describe the early signs and symptoms A. Shock The shock is your biological action to the trauma and leads to weakening the flow of blood throughout the body. This reaction can be caused by a series of variables, such as serious injuries, dehydration, cardiac insufficiency, allergy, and blood loss. An individual who is in a state of shock, certainly usually have sticky skin, cold sweats, and also skin pallor. They will probably have difficulty taking full breaths and could faint unexpectedly. When treating shock, try to calm the sufferer. Tell them rest as well as cover them with a blanket. If you see that your head or feet are light, raise the reverse location from where they are low in blood. An easy mother of having in mind is that if the face is light, raise the tail, Ã© E E
