Then go to pole position and you must stand oron your bike. If it's far enough down the corridor, you can get to it without leaving the building, you can ride anywhere in the game without being distracted by buildings and terrain. everyone is invisible. There is a bug in the game that allows you to "turn" into a motorcycle. After this error, it is not possible to knock another vehicle or anything off the motorcycle. You can also flip and get other big crazy bonuses with this glitch. To activate this glitch, all you really have to do is sit on the bike while lifting the clothes picker. First: 1. Approach the clothes bin 2. Place the wheel in the middle of the clothes bin, then place the wheel so that the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin, then place the wheel so that the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin, then place the wheel so that the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin, then place the wheel so that the clothes bin, then place the wheel so that the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin, then place the wheel so that the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin, then place the wheel so that the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin, then place the wheel so that the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin protrudes more than the other side. 3. Stand on the side where the clothes bin protrudes more than the side where the clothes bin protrudes more than the side where the clothes bin protrudes more than the side where the clothes bin protrudes more than the side where the clothes bin protrudes more than the side where the clothes bin protrudes more than the side where the clothes bin protrudes more than the side where the clothes bin protrudes more than the side where the side bike, run while the bike is moving forward. There are other ways to do this, e.g. B. to pedal a bicycle. It will be easier if you create your own strategy. This glitch is hard to do and takes a lot of practice. PCJ 600 is also the easiest for this. A good place to morph is the clothes picker upstairs in Hyman's apartment. You can also use the North Point mall as there are two pickup trucks there and you can drive back and forth if you can't get this glitch to work. Now you can flip and collide with other objects without falling off your bike. This error remains active until the wheel catches fire and eventually explodes. To disable this glitch, simply dismount, fire your weapon, turn sharply, or brake. For this mistake, you need the money you need to buy an asset. Navigate to an asset and the buy icon in front of it. Start playbackwhen you're done, press Tab and the button again. Once the playback ended, you were supposed to buy the property, but without spending any money. First, get a weapon whose ammo you want to double. Then find some rampage. Pull out the weapon you want to double the ammo. Then start going crazy. Do nothing and let the timer expire. If you fail, your weapon will have twice as much ammo as it did at the stadium gate where the driver's door faces the entrance Drive close enough to the door that it barely touches the driver's side. Get out of the car, activate the race and at the beginning of the mission. You will have unlimited time to play. Works great with other bikes and Caddy. Make sure you know how to blow up all those cars and you can do it VERY fast. Approach the car will explode and you won't get hurt and the car will burn, enter the health cheat so the car doesn't burn out (I entered it twice to make sure it worked) and now you control 3 burnt cars, wheel. This also works in GTA 3. You will need a mini gun with a lot of ammo to use this glitch. When the race starts, drive the Hotring into the black garage where the cars are rolling out. Drive to the back of the garage on the right side next to the wall. This will prevent any car from appearing during the race. Now get back on the track and take out your Mini Gun. Collide with oncoming traffic and use the auto-aim feature to blow up every car that comes your way. When the cars stop coming. Get back to the garage, get back insidecar and finish the race, the opponents are free. Australian hookers won't just get into your car, but if you pass a hooker and use the "HOPINGIRL" cheat, the hooker /sits/ gets into the car, and if you go to a remote area while driving, the car starts to swing and increases your health by another 25 hp If plan to run the game again, this is a helpful error. Start a mission on the mainland and kill yourself. If you wake up in the hospital, do nothing, just start a new game. Once you gain control of Tommy, kill him. (Whatever you do, don't start any missions). When you get up at the hospital, get into a taxi. He will take you to your mission location on the second island. Note: When you gain control of Tommy, kill him. (Whatever you do, don't start any missions). Get a PCJ-600 bike if you can for the first time. Find the barricades that keep you from the next island. Once you find them, go down the road a bit so you have enough room to accelerate towards the barricades and when you reach top speed just drive through the barricades instead of crashing into them. If you try to get to Starfish Island too early, you will be blocked by barricades and the walkways will be blocked by black mesh. You can take a motorcycle and a building you can enter, such as a pillar position. Ride the motorcycle to the entrance of the club (in this case) and get off before going inside, release the motorcycle and crash inside. Enter the building and then jump on the bike. Then you can go out. You are in what is known as a "ghost world" where most of the game's architectural graphics such as buildings, roads, etc. are not visible you can still run into them and get blocked otherwise. With this bug you can use the minimap to move around. The main goal is to see hidden items, weapons and other cool icons you wouldn't see otherwise. When driving a vehicle in the game, drag along a fence or low wall so that the driver's side is against the fence and press the triangle to get out and you will be on the other side of the fence. This is great for dodging police or gangs. If the police can't go there. This game has a way to block with assault rifles. (Rugers and M4.) Start shooting first, perhaps throwing a Molotov near you. Then run into the fire to catch fire. Now press the block button and your Ruger will aim at your enemies. To have more cars or bikes in the garage, just position the yearing, you will not see the traffic in front of you. If you know the geography of the game well, you can easily reach your destination without the risk of being hit by a vehicle. One of the two vehicles MUST be a motorcycle and park it halfway to the entrance (preferably on the side). Pick up another motorcycle or car nearby and drive it into the garage. Get on the motorcycle parked in the middle of the road and ride it too. Now you have 2 cars in your garage! When you've used a weapon and finished the clip, quickly scroll the mouse wheel up, then quickly return to the weapon you were using. The gun should now be reloaded. This makes group fights easier. While playing the game, enter the mission and go to where the Rampage icon should appear (but it doesn't because you are in the mission). Do a quick repetition here and mission is ok. You can later use this playback to launch Frenzy remotely. This is how the game is tricked into thinking that you are not on a mission, even if you are. This allows you to complete the same mission at the same time or several different missions at the same time. If you complete the same mission multiple times, the location of vehicles and items used in that mission will basically be created right after each other; in Fury of the Jury, for example is the final mission of Print Works; by doing it multiple times at the same time, you can trick the game to enable earlier gameplay elements. You can also take on more missions to speed up the game, and most importantly, double the completion percentage to get 100%. (For example: you can use this glitch to launch the same mission an obscene number of times, complete it once - that is, complete them all - and see a huge jump in completion percentage.) Here's how to get the Rhino tank to the area under the game map. Just grab a rhino, enter the dodo physics code, rotate the turret 180 degrees, and keep hitting the circle while holding the D-pad. Once in the air, fly down over the El Corrupto can. Since its top is not solid, you fly down the coast to the "underworld". Control it down or you'll go too deep and end up on the street again. If you did everything right, you can fly underground. In the air, flip the car on its side so that the driver's side is facing up, then exit. If you did everything right, the car will float in the air, and you will stand on it, which will allow you to shoot people with it. Note: If a tire bursts or the car explodes, the car will fall from the sky. Sometimes you can't get back to the car. Items to unlock To do this 100% completion, you must complete all story and side missions in the game. You must also score at least 45 points on the range, successfully complete all 35 rampages, successfully complete all 36 unique jumps, collect all 100 hidden packages, purchase all caches/assets, and rob all 15 stores. Upon reaching 100% complete all 36 unique jumps, collect all 100 hidden packages, purchase all caches/assets, and rob all 15 stores. Upon reaching 100% complete all 36 unique jumps, collect all 100 hidden packages, purchase all caches/assets, and rob all 15 stores. them \$2000 to help you achieve 100% game complete the game at 100%.
