I have and use about a dozen different video programs, but I frequently find that Moviemaker does just what I need very nicely. Review by LilPeck on Aug 31, 2008 Version: 6 OS: Vista Ease of use: 10/10 Functionality: 8/10 Value for money: 10/10 Overall: 9/10 This is the Vista version which like Movie Maker 2 finally allows you to cleanly edit DVR-MS files created by XP-MCE and Vista MC! Can't beat that and it's included with Vista. A few more options and features and companies like Pinnacle might start thinking about filing an anti-trust suit against MS, lol Publishing (Encoding) is a bit slow, takes 19 mins to convert a DVR-MS file edited (MPEG-2 video, MPEG-1 audio) that is roughly 22 min recorded program. Or is that slow? Personally I don't know, I did very little encoding on my old machine (Dell Pent 4 2.3Ghz, Non-HT) which was dirt slow depending on file size of course. My newest rig (AMD 5000+ BE 3.0Ghz Dual Core) is shhhh fast to be fair to the older machine, so encoding should be faster regardless. Review by dj4monie on Apr 21, 2008 Version: 6.0 OS: Vista Ease of use: 9/10 Functionality: 8/10 Value for money: 10/10 Overall: 9/10 It all looks like a reasonable product when you start but it is very slow to reload projects. Also saving as anything but DV-AVI is impossible - WMV just will not work. Resulting AVI has messed up photo fades and stuttering sound.
