they were the only female group on the list.[68] Throughout the career of S.H.E. A significant number of music groups have been labeled "the next S.H.E." by their labels. presented in hopes of emulating their success. When Warner Music wanted to create Taiwanthe boy group planned to market them as "the male version of ONA" before coming up
with the name "G-Boys". Some groups formed to topple SHE's position as the leading Taiwanese pop group. Jungiery Star manager Sun Derong stated to compete with SHE. Despite the increased competition, SHE retains ultimate control over the Mandopop group's awards, suggesting that the creation of these new
groups has done little to ruffle the trio's feathers. Endorsements In 2001, SHE began promoting the first of many products, including Digimaster products and the Fuzion Smoothie beverage chain. The group has since backed a number of companies including Bausch & Lomb (2002 to present),[71] Coca-Cola (2004 to present)[2] and China Mobile
(2006 to present). time[72]. One of SHE's most notable ads was for World of Warcraft [3] where the girls were placed in the context of a fantasy game world. [73] SHE regularly adds songs to advertising campaigns. The songs "Too Much" and "Beauty Up My Life" from their debut album Girls Dorm were used in commercials for Sogo and Wacoal
respectively. "Genesis" (Chinese: ç¾4éºæ°ä¸ç) and "Watch Me Shine" from the 2002 album Encore was used to promote the online game New Legendary Twins (Chinese: æ°çµä"£éå¬). In collaboration with Fahrenheit, SHE sang "Always Open" for 7-
 Eleven. Companies often use SHE's music videos as promotional tools. The music videos for "Genesis" and "Watch Me Shine" featured the game N-age; "Apology" (Chinese: èåf) showed flashes of Inventec's OKWAP phones. Daphne (Chinese: èåf) a Chinese shoe company, used the songs "Supermodel", "Laurel Tree Goddess" (Chinese:

Miscellaneous According to Baidu's year-end Top Searches
poll, the most searched movie of 2004 was House of Flying Daggers (Chinese: åé¢åä¼). The phrase received over 1.2 million searches, which is almost double the runner-up (Kung Fu Hustle). Baidu attributed the difference to SHE releasing a song of the same name earlier in the year. As a result of the search, the songs were grouped together with
the video, increasing the overall search results.[82] SHE has also influenced television drama, educational systems, and even business operations. In the series I Not Stupid Too, Chengcai, a character who practices wushu, was courted by three members of the school's chess society: Shirley, Helen, and Elaine, collectively known as SHE. The chain was founded in 1927 as a storefront ice cream parlor in Dallas. 1928-1946 It was reorganized as a subsidiary of Seven & I Holdings. 7-Eleven operates, franchises and licenses 78,029 locations in 19 countries and territories (November 2021). The company, which operates globally under the namesake brand, operates domestically in the US as 7-Eleven and domestically as Speedway, but primarily in the Midwest and East Coast and as Stripes Convenience Stores in the southern United States; Both Speedway and Stripes operate in multiple markets alongside 7-Eleven stores of the same name. 7-Eleven also operates A-Plus locations under the name licensed by the owner and other Metroplex energy partners, although most of these stores have since been rebranded as standard 7-Eleven stores.

called "Tote'm Stores" because customers would "throw away" their purchases. In some stores, there were "heritage" departments in front of the store. In 1946, the chain's name was changed from "Tote" to "7-Eleven" to reflect the company's new extended hours of 7:00 a.m. to 11:00 p.m., seven days a week. In November 1999, the name of the
American company was changed from "The Southland Corporation" to "7-Eleven Inc." After 7-Eleven adopted its current logo in 1968, the logo used a little aggressively. . She suggested making changes "to
make the logo look more elegant". History In 1927, John Jefferson Green, an employee of the Southland Ice Company, began selling ice, then eggs, milk and bread at one of 16 ice cream parlors in Dallas with the permission of the parent of one of Southland's founders, Joe C. Thompson.[10] ] Although small grocers and merchants were available,
Thompson believed that by selling goods such as bread and milk, the stores would reduce the need to travel long distances to obtain basic necessities. Thompson eventually bought the Southland Ice Company and turned it into the Southland Ice Company and turned Ice Company and turned Ice Company and Ice Comp
pole from Alaska as a souvenir and placed it outside her store. The column served as a marketing tool for the company because it was so popular. Managers soon placed totem poles in front of each store and eventually adopted an Alaska Native-inspired theme for their stores. Later, the stores began operating under the name "Tote'm Stores". That
same year, the company began building experimental gas stations in some Dallas locations. Joe Thompson also secured the department the company's stores, staff training so that people receive the same quality and service in each store.
success as a food retailer. In 1931, the world economic crisis hit the company and led it to bankruptcy. However, the company continued to operate under restructuring and rehabilitation. Dallas banker W. W. Overton Jr. also helped revive the company's finances by selling the company's bonds at seven cents on the dollar. Thus, the ownership of the
company came under the control of the board of directors. To continue the company's postwar revival, the franchise was renamed 7-Eleven in 1946 to reflect the store's new opening hours (7:00 a.m. to 11:00 p.m.), which were unprecedented at the time. In 1963, after the Austin store stayed open all night to meet customer demand, 7-Eleven
experimented with a 24-hour schedule in Austin, Texas. Later, convenience stores were established in Fort Worth and Dallas, Texas, as well as Las Vegas, Nevada. In 1971, Southland purchased the franchise market in
1963 with the purchase of 126 Speedee Mart franchise stores in California (all now open 7 to 11). The company signed its first territory license agreement with Garb-Ko, Inc. in 1968. of Saginaw, Michigan, which became 7-Eleven's first licensee in the United States. In the late 1980s, Southland Corporation was threatened by rumors of a corporate
takeover, which prompted the Thompson family to take steps to transform the company into a private model by buying out public shareholders through a takeover bid. In December 1987, John Phillip Thompson Sr., president and CEO of 7-Eleven, was worth $5.2 billion. Takeover of the company. [16] The buyout suffered from the stock market crash of
1987, and since it was initially unable to raise high-yield debt financing, the company had to offer some of the stock as an incentive to invest in the company's bonds. 18] Various assets were sold between 1987 and 1990, such as the Chief Auto Parts chain, [19] an ice cream division, [20] and hundreds of stores, [21] to ease debt incurred during the
acquisition. This downsizing also resulted in the loss of 7-Eleven stores in many metropolitan areas to rival store operators. In October 1990, the heavily indebted Southland Corp. filed for Chapter 11 bankruptcy in March 1991 after a
$430 million cash injection from Ito-Yokado and Seven-Eleven Japan. The two Japanese entities now controlled 70% of the company, with the founding Thompson family retaining 5%. In 1999, Southland Corp changed its name to 7-Eleven, Inc., citing the divestment of non-7-Eleven companies. In 2005, Seven-Eleven Japan made a bid and 7-Eleven, Inc.
became its wholly owned subsidiary.[5] In 2007, Seven & i Holdings announced that it would expand its U.S. operations with an additional 1,000 7-Eleven stores across the United States. In the 2010 rankings, 7-Eleven climbed to #3 in Entrepreneur magazine's 31st annual franchise. 500, "the world's first and most comprehensive rankings, 7-Eleven climbed to #3 in Entrepreneur magazine's 31st annual franchise.

would buy Speedway for $21 billion. In 2021, 7-Eleven launched a $70 million advertising investment in years, and doubled its marketing spend from the previous year. The ads, directed by Harmony Korine, are said to reflect the "evolution" of the chain's store format, focusing in part on the fact that "it's not just gas

For example, Mayor Michael Bloomberg's proposed ban on large soda pops in New York City was often referred to as a "bulky ban" (although the ban would not apply to
7-Eleven since New York's grocery and convenience stores are state-regulated). In 2012, 7-Eleven changed the Double Gulp's size from 64 ounces to 50 ounces (1,478 ml). The oldest style mugs werethey were wide at the bottom and didn't fit in car cup holders. According to the spokesperson, this was not a response to a serious proposal to ban
sodas[38]. In February 2020, they opened a cashier-free location at 7-Eleven and CP Group of Thailand opened the first 7-Eleven store in the Chroy Changwar area of Phnom Penh. The company has announced plans to open at least six more stores in

As of 2012, 7-Eleven operated 964 stores in Hong Kong, of which 563 were franchisees. Hong Kong is reported to have the second highest density of 7-Eleven stores after Macau.
All 7-Eleven stores in Hong Kong accept the ubiquitous Octopus card as a form of payment. They also accept utility charges and council rent. April 2007 (UTC) Reply [answer] I would guess this is a marketing ploy based on its logical impossibility. MadMaxDog 08:57, 23 April 2007 (UTC) Answer [answer] "24/7/365" Isn't this sentence logical? 24/7 means 24 hours 7 days a week. So, according to this formula, it should be 24/7/52, right? 24 hours a day, 7 days a week, 52 weeks a year?
Otherwise, according to the phrase, it is "24/7, 365 days a year", which breaks the trend of sorting working hours. Luet 06:57, 24 September 2007 (UTC) Reply [answer] Even if this phrase is illogical, I don't think it's confusing and there's no reason why people shouldn't use it. It's not our business to change the language according to semantic logic...

2007 (UTC) Answer [answer] You misunderstand what I mean - do the above math pedantically (I'm not insulting you, I'm quite pedantic myself, quite often) because "24/ Combination 7/365".relatively easy to understand, moreover, it must have a specific meaning. Many phrases are not quite correct, but they exist. Ingolfson 05:51, 30 September
2007 (UTC) Reply[reply] Actually, I just thought of something. 24/7 means available 24 hours a day, 7 days a week. Doesn't that in itself mean it's in constant use every day of the year? If you don't go through the years where you say one year is 24/7, the next year may not be. So I think it's 24/7, not just 24/7. Some ideas? Luet 00:39, 1 October 2007
(UTC) Reply[reply] I don't think so, as 24/7 often (for non-IT companies) can only cover normal days excluding holidays (ie Christmas). In the IT world, 24/7 is more often associated with availability 365 days a year.
