How to set up petsafe bark collar

Thank you for using our services. We are a non-profit group that manages this service to share documents. We need your maintenance help and improve this website. To keep our site running, we need your help to cover our server cost (about \$500/m), a small donation will help us a lot. Help us share our service with your friends. The store will not work properly if cookies are disabled. Our PetSafe range includes Short Collars, Detergents, Distance Trainers and containment collars. The best advice, service and price... Always 10% of BELOW RRP! Nobody knows PetSafe like Bark Control Australia!! Australian 3-year warranty! Need a hand for one of PetSafe products? Call us 1300 668 931. PetSafe invests in the research and development of their products to ensure that pet owners receive tested and effective products for their pets. Purchasing PetSafe products gives you peace of mind that PetSafe has worked closely with engineers and veterinary professionals dedicated to making the best products in animal care for the health and safety of your pet. PetSafe anti-bark collars are designed to meet the company dogs of different sizes and temperaments. Citronella citronella spray bark collars, ultrasounds and rechargeable bark collars. From the smallest of dogs to the most stubborn, to find the best collar for your dog, see our Breed Guide Bark Collars and visit our PetSafe Bark Collars range. For dog breeds working, you can consider ao SportDog Bark Collar. If you need help, do not hesitate to give us a call. Keep your dog safe inside your property with a PetSafe containment fence. Dog containment fences are a convenient fence solution to keep your dog in your yard. A waterproof and lightweight dog collar alerts your dog with a tone when approaching the border fence, followed by a quick correction if they try to cross it. With different options available for the size of your property and the size and temperament of your dog. There are also wires, joineries and flags. View the range of PetSafe dog fences. PetSafe distance trainers are designed for pet breeds with a range of up to 100m. The PetSafe range includes small dog level dog training manifolds such as the PetSafe Little Dog Remote Trainer, or for medium and large dogs, the PetSafe Big Dog Remote Trainer. For longer working breeds and trainers, visit our range of working dogs. Learn more about PetSafe Distance Trainers. Internal and external ultrasonic bark deterrents can help discourage the restlessness by barking. From the external protected against external water covering an area up to 15 meters (for nearby dogs!) or the indoor Bark Deterrent Indoor Ultrasonic covering an area up to 8 meters, good for placing from a door or a window that your dog can bark near. If you are not sure if PetSafe Indoor and Outdoor Ultrasonic Bark Deterrents products meet your needs, give us a callwe can help you find the best solution for your dog and the situation. Redirect excessive bark with the new PetSafe Bark Collar. This bark collar is designed with 15 static stimulation levels that help to discourage the discomfort by barking and mounting. The Bark Collar automatically finds the perfect setting to help your dog learn how to stop barking. Collar stimulation levels automatically increase with each bark until it stops. Static stimulation is annoying but safe for dogs. An integrated safety function automatically closes the collar for 3 minutes if the dog barks more than 15 times within an 80 second period. As your dog learns to bark less, stimulation levels are reduced. The Bark Collar is a great choice for dogs weighing at least 3.6 kg and over 9 months. Key Advantages: 15 levels of static stimulation; the static feeling is surprising but harmless. The sound and vibration sensors ensure that the collar is activated only when the dog wears it barks. Start with the lowest level of static stimulation and increase to the next level whenever the dog barks. Keeps up to rain, snow, mud and other outdoor conditions. Suitable for most dogs weighing 3.6 kg or more: strap neck fits neck size up to 68 cm. Uses a 6 volt alkaline battery; the part number of the PetSafe battery is RFA-1B-11. Only the bark of your dog causes stimulation, preventing your neighbor's dog from triggering the collar. Use Pet Safe battery model RFA1B8. Anti-barking collars, both spray and static, a long-term solution and should not be seen as a rapid-fix for incessant barking. It is important that you be with your dog while receiving their first correction to reassure them. The collar should only be worn for a maximum of 12 hours. Bark control collars must be used with your dog's normal collar. A track cannot be attached to bark control collars. Included in the box is the device, a quick start guide, a spray charge and 3-Volt battery (RFA1B8). Remove the device from the box and carefully read the instruction manual. Included in the box is the device, a quick start guide and a one year warranty. A battery is included and the more can be purchased separately. D: What size of dog fits this collar? A: This bark control collar is designed to fit dogs larger than 8 pounds and a neck no larger than 27 in. Q: Are you sure? A: Absolutely safe, but it is not suitable for geriatric dogs or dogs with aggressive tendencies. D: Will my neighbor's dog let him go? R: No, the collar works on the vibrations collected from the dog's throat. D: What about the rain? A: The device is designed to withstand the elements and should work normally even after a year of use. One year warranty is included. D: How tight is it to work? A: Tight, but not too tight; leaving enough room between the neck and the collar for a finger to fit. The same size of a normal collar, if not slightly snug. Q: Can I set the correction level manually? A: No. The collar determines the correction levelbased on your dog's bark. D: What is the difference between this and the other, less expensive? A: The other bark control collar has 6 levels of correction and tackles only barking – it is a less advanced unit. This collar faces barking, whipping and whipping with 15 levels of correction. For warranty, problems, parts and after-sales care, please contact 1800 814 302 We strive to ship the next business day after receiving an order. You should expect to receive items purchased online from Equipet within 1-2 business days. For example, orders made on Monday will normally ship Tuesday for the delivery of Wednesday. Orders made during weekends normally ship on Monday for delivery on Tuesday. Bank Holiday orders ship on Tuesday for the delivery of the next day.
