48 laws of power free download iphon

Launch your discreet, skillful campaign for power at work: immediately. "Foundations" is the first in a series of apps that provide discreet, on-the-job training in the Arts of Power: how to acquire, maintain, and expand your power in the workplace. It is based on the New York Times best-selling book, The 48 Laws of Power, by Robert Greene. **Thousands of successful users from around the world since June 2011** This system does not provide you with sugar-coated, politically correct sayings and exercises. Nor does it offer the ubiquitous "secret-formula" for rapid success still used by charlatans to this day. Real, lasting power is gained by seeing the world clearly (no matter how ugly some of it may be), and by playing the game of power: subtly, skillfully, and in a way that reflects your own uniqueness. Play this social game wisely, and not only will you maximize your power, you will do so in a way that is fun AND profoundly reflects who you are. Remember: power isn't the problem, powerlessness is. CONTENTS The Foundations app utilizes:- 25 audio sessions + 5 Bonus sessions (approx. 15 min. each, 9hrs in total)- 4 Integrated Tools (always accessible)- A member's web site (for home use) HOW IT WORKS Ideally, listen to one audio session on the way to work, as a morning briefing for your day ahead. While you listen, you are given the opportunity to reflect on how various portions of Greene's text (plus real-world business examples) relate to your situation. Each session ends with a suggested action designed to help you discreetly and skillfully enhance your power that day at work. Each session also brings you closer to revealing and strengthening the Foundations of your power: the powerful skills, behaviours and perspectives you already have to some degree. Refine these, and it not only increases your power immediately at work, it also gives you the solid base you need to add power-enhancing capabilities that are new to you. During the day you record any observations or planned actions within the four integrated tools. The four tools are: 1) REFLECTOR: Self Assessment 2) DOSSIER: Analyzing the people you work with 3) STRATEGY: Your plans to enhance your power 4) PERSONA: A vision of the most powerful - and sustainable - aspects of your character that you should present to the world As you complete each audio session, a new element is released within one of the tools to help you quickly record your observations and strategies. By the time you finish the primary 25 sessions, the observations you have made, and strategies you have designed in the four tools, guide you along your own, unique pathway to mastery. Listen to the sessions again and again, or just keep refining and adding to what you've entered within the tools. SPECIAL THANKS TO OUR V.I.X. USERS: Robert Greene has been following the development and testing of this unique mastery system over the years. It was directly through the insightful feedback from our first generation users - and the endlessly practical wisdom of Greene's work - that the 5 new bonus sessions 26-30 came to be. WARNING! Action-based program Pursuing mastery requires taking real-world action: however since AMS cannot know your exact situation, this app provides you with suggested actions. These actions are specific enough to be understood, but must be adapted to fit your unique disposition and situation. Therefore, we cannot know what form your final actions will take or be responsible for any consequences. Rest assured however, Mastering The 48 Laws of Power is all about taking wise, subtle action. For those who want to gain power, observe the power or arm themselves against the power ... 48 Laws of Power summarizes the famous laws written by Robert Greene to obtain and study of power in all areas of everyday life. Laws which apply in the workplace, in relationships, in the street or watching the evening news: everything, everyone and to achieve any purpose. This version includes 48 laws and its short summary. Features LAWS LIST You can see all laws with its corresponding title, ordered as they appear in the book. LAWS DESCRIPTION Each law contains its short summary, a brief explanation of why it is important to apply the principle. SHARE LAW There is a functionality for sharing law, whom you feel is necessary, who see that you need, in your Facebook wall or wherever you want. NOTIFICATIONS In the second section you can manage the appearance of a daily notification with the title of the current law. Once you allow notifications, from the day that enabled them in the following 48 days you will see a different law, every day. Tapping in the notification, you can access the app and view its description. LAWS SEARCH In the latest version we include search functionality, both in the title of the law and in its description. Thus, if you remember a concept that you want to reinforce but do not remember the location or number of the law, you can find it easily. SEEN AND LAST SEEN LAWS We also include the state of the laws you have read and which law was the last seen. Therefore, if you have not finished reading a law, you can easily locate it. Although the book is in more debt, this is a quick and easy way to get the basics of what the 48 laws of power is about and you can practice these laws throughout your everyday life. If examples of how to apply these laws were added, this app would have no comparison. Great app! Who really buys into such nonsense? Hurting any other to gain power, wealth and popularity only works against your own contempt. Because, the day you were born everyone implored you to be good, stop crying, and do the right thing. It's inescapable of your conscience! The true way to power, wealth and popularity is to help others achieve what they want and do it together bringing as many as possible with you. As you do so you learn what is working, what is changing and what no longer works so you can constantly adjust to be the best. Always work with others as a group, family or friends. It is very rewarding not just to yourself but everyone! Nice reminder to review and keep these laws to live by in your mind constantly. They need to be reviewed and applied in different ways. So keeping them fresh daily is a wonderful way to succeed in life, in any aspect of it, from professional to personal.
