It may get harder the further I go." Aug 3, 2021 Version 3.2.6 Magic update is waiting for you in your Kingdom!- New stories will be available over time (you need an Internet connection).Happy playing! I get that most apps have lots of in app purchases and are geared to have enough friction to get you to spend your money. But if I spend 200 gems that I've purchased (and they don't come cheap...) for a special building why should I have to spend more gems in order to have the building finished? Or more gems for items to finish it? That is absolutely ridiculous. A gem purchase should come finished on your map...Not incomplete. All in all I think it's a fun game but I will not be spending another dime now that I see how the purchases made with the gems I spent money on are incorporated. I am much more likely to spend more money on a game if I feel that the money I have spent is worth it. That is definitely not the case in this game. Dear Ruler, the houses you buy for crystals are not supposed to be finished with crystals. Please write to our support service: support@fairyingdomgame.com, attach your invitation code and send us more details regarding this purchase and we'll look into this problem. I use to love this game, I've been playing for 5 years now and I tutted about the fabulous techs and customer service reps! Well, all fabulous things got sold... yep, they must have changed hands and you can tell! Tech support is nonexistent - Customer service must come from AT&T because they snapped up the worst group ever... This game has weekly and seasonal inner-games, and once upon a time, before the "money grub" started, the seasonal update would come out before the inner games began asking for things like ice skates, cookies, feathers, wool colors, and lots of other items the updates would provide. Now, you must spend real money if you wish to be competitive... I will never spend real money on a "money grub" play. We are in the middle of coronavirus, a lot of people are out of work, and they want to play money grub games... I AM NOT PAYING!So tech support responded, you can read their response below. No reference to when the winter update will come out. However, this has not stopped them from putting the winter weekly games out. You cannot win them without the ability to create the items requested unless you use gems. How do you get gems? You pay for them with real money you need to feed your family, or buy medical supplies to help your family thru covid. It is clear the developers do not care! Don't bother with this "game". Hello! We appreciate the feedback! Our team will take it into consideration. I'm having so much fun with this game- but it's getting stupid unfair. There are more and more quests that you cannot complete without spending real money!!! That's Not okay! I usually don't even spend money on games, but I've been playing this game with my daughter and it was just a little bit at first and started creeping up. There are options for watching videos to earn more crystals (the things that you pay for instead of coins which you earn in-game), but you get one at a time and you start needing more and more crystals to expand your land, for example. But that's not even the worst, now you need just real money to buy things for quest completion, like doll houses and puppet theaters. Really fun but give me a break, you're not even getting anything real. And I bought her these cute little dinosaur critters that put out flowers thinking they'd add a lot of fun to the game but they just stand there looking a tad creepy. It's my fault for paying the money, I know that. But it's frustrating that if you want to get anywhere in the game you gotta pay up. In-app purchases doesn't begin to cover it. Dear Ruler, we appreciate the feedback! We'll take your comment into account. The animals are the most valuable objects in game, because the items they drop give players many points on the tournaments and help earn more crystals.
