## CREATING A MASS MOVEMENT

"In the six weeks following the first webinar I did based on the principles of Russell Teaches in Expert Secrets, we sold more than we had sold the previous year". Alison J. Prince, BecauseCan, creator of the 0-100k System "Russell Brunson teaches internet marketing in such a way that anyone can do it. He taught me that you need three things: a colorful character, a cause, and transform people. Webinars like Russell teaches them really transformed my business. "Liz Dunoon, The 10 Minute Tutor, author of "Helping Children with Dyslexia" Russell Brunson is amazing. I've been with other coaches, amazing coaches, and what Russell has done is take abstract ideas and carefully pack them into small steps and principles. He let me see what he was doing, but I couldn't put words into him. Russell has a knack for putting powerful things into formulas step by step. "Setema Gali, author of Winning After the Game" "Russell's advice has helped me keep my business in good shape. For the past nine years I have been able to live in 65 different countries and support myself by selling a single e-book that costs \$67.00. I have sold over 100,000 copies. We've started other businesses as well. Jacob Hiller, sports coach and creator of The Jump Manual If it weren't for Expert Secrets, it would have been impossible to grow my business the way I have. Russell's figured out what works and what doesn't. I have been able to help more than 350,000 women with my program, and that would not have been possible without the information I learned from Russell. Kaelin Poulin, co-founder of LadyBoss Weight Loss, Russell is a genius. The only two books I recommend to my teams or clients are Dotcom Secrets and Expert Secrets for marketing and positioning in today's market. Garrett J. White, founder of the Wake Up Warrior movement and author of Warrior Book. It was life changing for me. I have been able to double my income as a chiropractor simply by teaching other chiropractors what I learned in this book. I'm always grateful to Russell. "Dr. Chad Woolner, DC, aligned the integrated medical clinic: experienced secrets taught me the importance of putting together and building a strong culture in whatever I'm doing. When you become an expert, it is also vital to build a culture and community around your movement. I am able to help so many more people around the world now because of what I have learned from Russell". Liz Benny, Queen of Kapow, Business Coach and Business Coach "Expert secrets help me best. Luca Nu' A± ez, Amazon's client" I lost \$\$ thousands of more ads running trying to figure out what was missing...until I found myself I'll be with this book. "Nicole, Amazon's customer review of Russell Brunson's Secrets PDF Russell is excellent at explaining the basics. of sales, storytelling, buyer psychology and webinars. This book would be dangerous in the hands of the wrong people! A lot of it is manipulating that you can rationalize as "pressing the incredible value." I'm not skeptical of sales tactics. 100% will work! I'm skeptical about the author's influences. He's chums with Perry Belcher. It was notorious for online fraud (supplement industry). He swindled millions of people. Russell works with Frank Kerns to, Tony Robbins, the internet marketer. Pure snake oil there. I can't figure out why a nice guy like Russell keeps this company and uses his tactics online. That's what he teaches. There are many ways to get rich. You have to ask if what you are doing is truly ethical. Flash News: Not everyone who uses ClickFunnels is successful: that's what it implies. But if you encourage them to sell it (generous affiliate program) and highlight the minority of them, win gold registration trophies, this company will only be bigger. That's fantastic marketing and the details are in this book. I hope the incentives of your program will change to something more philanthropic and the low marketing highlights the Massive It would be better if people knew if what they were selling in their own business was actually valuable (not no perceived value). But, as human nature shows, most people don't care about that. Countless products used with ClickFunnels and marketed by an Experts' are in fact useless. I bought them there! That's how effective this book is. Russell Brunson's Expert Secrets PDF IA I'm not saying that Russell should become a master of business ethics. However, from being in the online business space for a decade, what I can tell ita's just become more crowded with low-value infoproducts that make people a lot of money in part due to incredible marketing systems like ClickFunnels. Add a perorata sales that forces the blending and gold online that's. But do we really need all that? I hope people with a proven product that really does help people find this book. I hope philanthropists find this book. I just want dona wannabe's who just have their eyes set on money and materialism find this book. But that's the nature of free enterprise. Second Expert Review about Secrets PDF booka by Russell Brunson A± Your results are your accreditations! This book is amazing! such a significant number of treats, an excessive amount to use in 1 flipping. I love this statement that basically extends the HOWA to be prepared for this statement for everyone comes in their life an exceptional minute when they hit slightly metaphorically on the shoulder and offers them the opportunity to complete a very extraordinary thing, interesting to them and equipped to emabrgo gifts.
