I honestly love the game and I would like to give some suggestions ... I'd like if you can add a correction view where the player can look around like in Fortnite for example or of cod or some other game Battle Royale for the more that is the pov I like it ... the pov ur game makes it a bit difficult for me cuz i m used for the fixed view, rather than the different player movement and display different modes (I gives know what mode is, sry), but However u totally deserve the 5stelle, but the reason could not give you that it was Becuz thereÁÁ € no s fixed sight but still keep the pace of the firm good development work and keep innovating * * Á á € œ Á € Á Á Á Á »Á * * Á» guys Ily and yes I try to get used to ur pov up u guys add the view Á * fixed k thatÁ € s all ita know GR8 Total game and I like to keep my job well. DaÁ % Á ä ... ä * Á »Á * Á » Now, after a short-time server update I was able to play the game, but then you are proving that there is a network problem. Please solve the problem as soon as possible. Please and even solve the diamond problem that we can only buy everything from diamonds can also be supported only and even some rare diamond characters only ABD even pets can also be purchased only by diamonds. Please do some way to buy these things with coins and diamonds both so that not only rich can have good Or do some way to have some diamonds without spending real money. As before this game was having a simple way to have diamonds that was clock and getting diamonds but now he is having only pink diamonds and they do characters not unlocked as an aluck or etc or pet like it, etc. Please resolve the problem as soon as possible, it will be very grateful, grateful and much more for you. But I'm giving this 5stelle game because I like this game. It feels like the free fire company only only For money and don't care about things that happen in the game.1) The bug response group in FF is terrible. There are many bugs that have remained in ff for many months and not yet fixed after the update. 2) I don't know what others think, but events and royals that cost diamonds are terribly expensive. It takes too many diamonds to win the Grand Prix. I even saw many streamers who spend diamond lakhs just to win the grand premium. 3) If you want the game improved, it is better that you have tried more to solve bugs in the game rather than trying to spend money on the game. Trust me to focus on the game, you will have a great profit.4) There is also the hacker problem. After a new grade season begins, many people try to push with hackers. We cannot say who are all real or all driven with hackers. It would be better if you can play players with hackers. (For example. If a specific player plays with an obstacle for more than 3 games, the ID should be banned (you can do it with coding)) 5) from some good objects when we restore. I think people focus more on their level degree. I think the fundamental part of the game is the level. If people focus on levels, then the hiday formed by charging players could end. If you can make these steps, then Fire Fire will be an ideal game and you will receive more download.
