Since then, the game has been removed from the page of the classic Rockstar, and both the Grand Theft Auto and the Grand Theft Auto 2 are no longer available from the websites of Rockstar games. These sites include Allgamesaiz, Games Besold and CNET. The game may request an emulator, such as DOS Box, to work on a Windows computer, Rockstar Games The original GRAND THEFT Auto Game Giodo was released in 1997 by a small study named DMA Design, which will later become Rockstar Games. The Development Company and the Grand Theft Auto Series of Games have expanded rapidly over the years that followed, with the release of more than a dozen automatic titles of Grand Theft in various platforms, along with other award-winning and best-selling games, as Max Payne and the Noire. When it was released, the original Grand Theft Auto was an innovative game, depicting urban crime in a non-linear sandbox style playing world. The game is located in the fictitious cities of the city of freedom, Vice City, Vice City and San Andreas, which are based respectively on the United States city of New York, Miami and Los Angeles, respectively. Players are free to explore the environments at their leisure and are not linked to a linear texture. The game contains a plot based on the global mission that can be completed at the player's favorite rhythm. The game offers eight characters to choose from, but the choice of the character has no impact on the game. While his graphic seemed dated by today's standards, the game is fun to play and provides a nostalgic look to see where the Auto Grand Theft series got its beginning and until then the graphics came. The Grand Theft Auto Series of Video Games is one of the series of most popular and controversial video games of all time. Fourteen titles, including expansions and DLCs, were released for the series saw visually came with the release of Grand Theft Auto V. The biggest change from top-down style shooter formed in a 3D third-person shooter size. The appearance and feeling of the series remained somewhat the same since then, with updates to the game engine and graphics over time. The series has also maintained its popularity and commercial success, with every version of being one of the best selling games, if not the highlevel game, for the year of its version. Although the voices are desired with regard to the next title, a release date for the Grand Theft Auto 6 has yet to be announced.
