Review: A farewell to the arms à ¢ â € â € œ¬ â € ¢ â € ¬¬ "The world breaks every one and then many are strong in the broken places.à ¢ â € £¬ "Ernest Hemingway, a farewell from weapons, described by Michael Reynolds as" the premier American war novel of that Second World War I "was his first best-seller and anchored his prominence as a modern American author. He also defined the pattern for the modern medium in war time novel first edition coverage, 1929 the farewell of weapons Listen as if it were the memories of the protagonist of Hemingway, Frederic Henry, a American serving as an ambulance driver in the Italian front in World War I. After being severely injured by mortar fire while bringing food to his men in the trenches, Henry falls in love with the beautiful British nurse Catherine Barkley. After he recovers and returns forward, some Italian soldiers decided Ram kill him during a retreat because he speaks Italian with an accent. Henr. Milan, 1918 Hemingway in uniform. He only served for two months, however, as he was also seriously wounded by a mortar injury while drinking food for men on the front line. He said from the event $\tilde{A} \notin \hat{a} \notin \text{"when he goes war as a boy, has a great illusion of immortality. Other people are dead; it's not you ... so when you're? seriously wounded the first time you lose this illusion and know that this can happen to you. "One of the main themes of the book is the difference between people who" realize "and <math>\tilde{A} \notin \hat{a} \notin \text{"m} , \neg$ "and those who do not. At the beginning of the novel, before being injured, Henry reflects the priest à ¢ â € "He always knew what he did not know and when I learned later. What is referring to is debated by scholars as a fan questioning or as a fan of God, but I would discuss more have to do with specifically a crenian § or a desertion in the existence of significance in life and death. Ernest Hemingway's fiction, the trop of existentialism is a strong and reasonably so. Soldiers cinemically question the purpose of his sacrifice, and when Henry feels that he finally found meaning in his life. everything unfolds again. The rain is the great symbol in the novel of the arbitrary nature of life, the unavoidable disorder of life and its final deviation. Despite the sense of palpable despair found in a farewell to weapons, it is still somehow a very pleasant reading. The angle of love is a charming, and the book exhibits one of the greatest achievements of art - making pain in beauty.
