## How to organize bookmarks in chrome android

[/en/chrome/customizing-chrome/content/](#) Bookmarks Have you ever found a website you wanted to view later, just to realize that you do not remember the web address when the time has come? Bookmarks are a great way to save and organize specific websites so you can revisit them again and again. In this lesson, we will talk about how to add bookmarks to Chrome, how to manage and organize your bookmarks and folders, and how to import bookmarks from another browser Watch the video below to learn bookmark bases in Chrome. You can save any page you are viewing as a bookmark. Click the star in the Omnibox to save the current page as a bookmark. You can also press Ctrl+D on the keyboard. A dialog box will be displayed. Click Done. The bookmark will be saved to the Bookmark bar. Using bookmarks Once you have marked a website, there are some ways to open the bookmark. The address bar: When you start typing in the address bar, all bookmarks corresponding to the text will appear with a star icon next to them. Just click a bookmark to open it. The Chrome menu: Click on the Chrome menu in the top right corner, pass over Bookmarks, and then click the bookmark you want to open. The Bookmarks bar: The Bookmark Bar is located on the page New tab just under the Omnibox. Click a bookmark to browse that page. If you prefer, the Bookmark bar can appear under the Omnibox at any time. Just click on the Chrome menu, move the mouse to Bookmarks, and then select Show Bookmarks bar. If you are going to useregularly, you may want to learn how to organize them using a function called Bookmark Manager. To open the Bookmark Manager: click on the Chrome menu in the top right corner of the browser, move the mouse to Bookmark Manager, and then select Bookmark manager from the drop-down menu. The Bookmark Manager will be displayed. From here, you can arrange bookmarks in folders, delete bookmarks and folders that you no longer use, and search for bookmarks that you cannot find. To create a folder: If you have several bookmarks on a topic, you might consider creating a folder to keep them organized. New folders can be added to the folder of the bookmarks bar or to the Other Bookmarks folder. Click the folder where you want to add a new folder. In this example, we will create a folder to help organize some recipes in the Other Bookmarks folder. Click Organize, then select Add Folder from the drop-down menu. The new folder will be displayed. Type a name for the folder and press Enter. In our example, we will type recipes. The new folder will be created. The Other Bookmarks folder will also appear on the Bookmarks bar for easy access to all your bookmarks. To add a new bookmark to a folder: You can add new bookmarks directly to a folder when saving a bookmark. Click the star in the Omnibox to save the current page as a bookmark. Select the desired folder from the drop-down menu, and then click Done. To add an existing bookmark to a folder: You can also move all previously saved bookmarks to a folder. FromManager, click and drag a bookmark to the desired folder. The bookmark will appear in the folder. You can open the bookmark from Bookmark Manager or the Other Bookmarks folder in the bookmark bar. To move a folder: You can move entire folders between the bookmark bar and other bookmark folders. Click and drag a folder to move it. Move a folder to the Bookmarks bar folder will put it directly on the Bookmarks bar. To delete bookmarks and folders: If you don't use any bookmarks or folders, you can always delete them. To delete a bookmark, right-click the bookmark, then select Delete. To delete a folder, right-click the folder, then select Delete. You cannot delete the bookmark bar or other bookmark folders. To search for a bookmark: If you're looking for a specific bookmark, but don't remember where it is saved, you can look for it. Type an address or search term in the search bar. The bookmarks corresponding to the search will be displayed. Importing Bookmarks If you have already saved a lot of bookmarks in another web browser, you can import these bookmarks into Chrome. To import bookmarks: Click on the Chrome menu in the top right corner of the browser, move the mouse to Bookmarks, and then select Import Bookmarks and Settings... A dialog box will be displayed. Select the browser and items to import. In this example, we will import bookmarks from Internet Explorer. Click Import. Click Continue. Imported bookmarks will appear in a folder in the bookmark bar. You areuse the bookmark manager to reorganize these bookmarks if you want. [/en/chrome/privacy-and-security-in-chrome/content/](#) users of google chrome for android may have noticed that the passage between cards is a little different suddenly. the company began to launch its 'tab grid layout' which gives users a flat grid of preview tab to scroll when they touch the tab button, rather than the view of scrolling or flicking through the top of tabs that was a rewarded chrome on android. in addition to providing a better view of the content of each tab, the update allows you to keep the tabs better organized by grouping them. google has actually announced the new grid layout tab in 2019 along with tab grouping on chrome for desktop, 'send to device' feature, providing answers to certain queries in the url bar as user types, and a browser color customization tool. then, google said the board management features for chrome on android would start rolling out in the coming weeks. For whatever reason, they're just coming. as explained by google in that blog post 2019, the board grid layout is intended to help users preview the thumbnails of the tabs they opened and select the tabs more easily. also makes it possible for users to group cards by dragging and releasing them to each other. is a simple and elegant feature that will change the way some people use chrome for android. chrome for android tab grouping advantages in the display grid card, users cana new tab, select an existing tab to display, drag a tab to another to create a group of tabs or in an existing board group, and tap the button of ellipsed menus or burger. this gives the options of, again, open a new tab, open an unknown tab, closing all tabs, grouping the tabs by selecting some, and opening the chrome settings. When a user selects a group of tabs to display, it opens the same way as an app group or a folder from an Android home screen and presents the tabs grouped into another parchmentable grid view. when a user selects one of the tabs to display, the other tabs of the group are shown in a small toolbar at the bottom of the chrome window. this makes it easy and quick to switch between the cards that are in the same group. chrome bookmarks for android have never been particularly visible or quickly accessible. giving users the ability to group cards, google made it possible to maintain many more open tabs without becoming overwhelming. Although, cards and board groups are not saved as bookmarks are, they can be kept open indefinitely, that many users no doubt choose to do and probably more will with this new feature. Users could, for example, group a number of tabs for different news, sports or entertainment sites that visit regularly, or search cards for a trip or holiday they are planning. further information: how to use google chrome's new tab search & omnibox features source: google twitter's tip jar now live to select users: what you need to know how to sort bookmarks in chrome android. how to manage bookmarks in chrome android
