Feeling light headed and sick in the morning. Feeling light headed and sick all the time. Feeling light headed and sick pregnant. Feeling light headed and sick before period. Feeling light headed and sick after eating. Feeling light headed and sick 35 weeks pregnant. Feeling light headed and sick to stomach. Feeling light headed and sick covid.

Heat kills more Australians than any disaster. Natural heatstroke is fatal in until 90% of the Cases. During 2009 Victorian heat wave The number of deaths increased by 374 disease People. Ah, heat-related may be prevented. Keep cool, avoid fansical vigorous activity in hot weather, and drink a lot of water and other children leave fluids. never alcohol. the elderly or autonomous estimation animals in a triple car. Call Zero (000), if a person shows any signs of exhaust by heat or insulation. Anyone may suffer from heat-related diseases, but those with greater risk are: people over 65, particularly those who live alone or without babies air conditioning and children young and lactating young People who are physically well, especially with heart disease, blood pressure or pulmonary disease people in medications for mental disease. Elderly people are more prone to heat stress than younger people, because their body can not adjust well to the bad change or prolonged temperature. They are also more likely to have a chronic disease and be taking medication that can interfere with the capacity of the body € s to regulate the temperature. There are many factors that can cause heat stress and heat related disease, including: dehydration to maintain, our healthy body temperature needs à € à €
