While the person who creates the map can determine which symbols to use, there are a few symbols that are universal. For example, a long blue line often indicates a river, while black lines represent airports, and a red cross © a hospital. What is © A Map? An A-© a visual that represents a space as small as a room or as big as the whole world. It shows spatial relationships among its characteristics, and can show other information such as climate, political borders, elevation, financial information and more. Maps are created by cartoonists. A Josiat160; What is © Cartography? A Josu160; Cartography, or mapmaking, has been in practice of drawing maps. The practice since and © technique. Cartography, or mapmaking, has been in practice since and in the cave wall. Scientists believe it dates back more than 16,500 years to the Magdacanian era. Other ancient cultures, including the Greeks, Romans and Chinese, © used maps. Changes Through Years © Ã (YearsÃ)* Ã je 160; While most modern maps are printed on paper, digital maps are becoming more popular. People can access these maps on computers, phones, tablets © even in car GPS systems. Even © the way maps are made has changed over the years. Older cartoons used land surveying to create maps. Even tually, they started using © photography. Nowadays, satellite © lites are often used for cartoons used land surveying to create maps. Even tually, they started using © photography. Nowadays, satellite © lites are often used for cartoons used land surveying to create maps. most can be divided into two general or thematic purpose. General prop maps are designed to show the exact locations of things, such as roadmaps, atlases, building maps and wall maps. Thematic purpose. General prop maps are designed to show the exact locations of things, such as roadmaps, atlases, building maps and wall maps. Thematic purpose. state population, a national economy or urban electoral populations. Thematic maps can use color spots, dots, isopletos, or acordoples. Interesting Facts About Maps While the North is © usually featured at the top of the maps, which hasn't © always the case. Muçulmanos made maps with the south at the top when Mecca was located south of its location. Many Europeans positioned to the east at the top. Some governments around the world practice map censorship. For example, Russia requires maps to show Crimea as part of Russia. Bologna Ptolomy, the first printed atlas, sold for \$3.12 million in 2007. The Library of Congress paid \$10 million for the Cosmographic Universalis map dating from 1507. Itesseesseessenholmatas believed that this © the first map to use the © name. The next step is © some assets. As I mentioned in the supplies I picked up all my assets from Asset Packages I used were: Bandit Camp Assets, Buildings Pack, Camp Tokens, Grass & B Road Assets, Meadow Ruins, Papercraft Cottage, River & Water Assets, Roadside Clearcut, Roadside Forest Tokens, Roadside Filing Grass, Tiling Road road, Tiling Grass Textures, Wonderdraft Town Assets Pt.2, Wonderdraft Town Assets Pt.3, Won Instagram, Patreon, etc.(I also sent him an email and he gave me the consent that I can use his assets in this Instructable) Photo Courtesy: Google Maps with satanic him an email and he gave me the consent that I can use his assets in the carrier transportation and he gave me the consent that I can use him an email and he gave me that I can use him an email and he gave me the consent that I can use him an email and he gave me the consent that I can use him an email and he gave me the consent that I can use him an email and he gave me that I can use him an world Environment Environment Google seems determined to record to record all of our lives. And then post these detailed images online. Anyone with internet access can now see some of the most mysterious objects, fascinating animals and strangest people in the world. Look at that. Only. Selection of unusual images captured on Google Earth, Google Maps and Google Street View. Clearly, these snorkelers were never informed that the water © integral part of the diving experience. Thanks to your picture taken by Google Maps in Bergen, Norway, these two guys got acclaim for sitting on the side of the road decanted in snorkeling equipment. Photo Courtesy: Google Maps The two pranksters are residents Bergen Borre Erstad and Paul Age Olsen. After being knocked down that Google Maps car would be driving, the two men got dressed and waited. The silly snorkelers photos were viral, with the impressive duo poses, reading magazines and playing on the road with pitchforks. These prank pandas aren't in a park. These images come from Chengdu's research base of giant panda creation, a facility designed to provoke panda passion. These adoring images were captured on Google Maps when shots were collected from Sichuan, China and show the pandas looking happy and playful. Photo Courtesy: Google Maps clearly the efforts of the center of Chengdu to increase the panda population are working. The facility opened in 1987, with six rescued pandas, but facilitated 124 born of pandas until © 2008! The center too © m m © a popular Turkic destination, where visitors can see the cute creatures in their most romantic ones. Perhaps the person who wrote "Ahole" with an arrow has never heard of the saying "Good fences make good neighbors". The owner of this little region, Washington, land and its neighbors seem to have unresolved problems. Photo Courtesy: Google Earth The message cut was created when Blaine and Cindy Zechenelly decided to paint their garage and an adjacent apartment. The neighbors saw red and insisted that the purple property was a monstrosity, even signing a petition asking for their property taxes to be lowered. While the angry neighbor clearly did not enjoy the selection Colors, Google Earth users have a kick off the dispute. This giant shop may seem some kind of Structure, but in reality © The Atomium, a Brussels, B © Igica, a milestone built in 1958 for the Brussels World Expo to honour progress in science. The tome was the only one selected to represent scientific achievements. Photo Courtesy: Google Earth The building should not stand on bread © After the World Expo, but it was maintained due to its popularity. ItoNon © One hundred metres high are constructed from stainless water. Tubes connect the building with five spheres. The Atomium © now a museum full of exhibitions, public spaces and a restaurant. Looks like a prince. © who should be in Nazi Germany, but it's... © Actually part of the U.S. Naval Database in Coronado, California. Known as the Amphibious Naval Complex 320-325, the original concept 1967 was very simple still appears on Google Earth. In 2009, a circle of 600m jellyfish crops. Specialist in crop circles Karen Alexander told The Telegraph that it was the first jellyfish culture circle she knew and was three times bigger than traditional versions of these phenomena. Photo Courtesy: Google Earth Hello © In order to create an unique piece of art, some crop specialists theorized that its tenticles and body parts represented the Earth's magnetosphere. Other analysts of the culture circle claimed that it symbolized human energy fields known as chakras. Located in Oxfordshire, England, the Horse Uffington is a mystery. The figure of the hill-historic three thousand years goes back to the bronze age, is 374 feet in length and was created from deep deep trenches With crushed white chalk. Re-filling the project with chalk, or "re-chalk", has been a local tradition for hundreds of years. Photo Courtesy: Google Earth The UFFINGTON WHITE HORSE is a favorite among paranormal fans, who notice the exceptionally high number of culture circles found near the image. Whether it's what this abstract equine really represents, the fluidity and movement in your design are undeniably beautiful. In Shikoku, Japan, the village of Miyoshi had a declension in the population. Its remote location makes it a little appealing choice for the workforce, and the city's residents are slowly dying. Seeing that the area where she lived was almost deserted, Ayano Tsukimi decided to honor her dead. Photo Courtesy: Google Maps By 2014, Tsukimi had created 350 real-size dolls, each representing a village that had died. While the dolls are found in several shops, village houses and schools & Ahem, Tsukimi put a lot close to the road to encourage visitors to pay homage to the dead. Who cares about the man who uses the horse's head? Someone photos that knight around can be seen on Google Street view on apparently. Probably not just at this point, too. This photo was taken in the Hardgate neighborhood in Aberdeen, Scotch, where people were online to boast that they know Boyriz horse. In 2010, a story about the boy boy generated more than one million successes. According to the fans, this trick pane appeared in several different photos of Google Street View. Shark Headington was ordered in 1986 by the local radio host Bill Heine. The two-meter shark is made of fiberglass and the sculpture, saying that the planning had not accepted. Photo Courtesy: Google Maps An An by the City Hall to move the sculpture to the local swimming pool was refused. In 1992, the Environmental Department decided that the shark could remain in the house was bought by Heinekes son in 2016 and © currently run as an Airbnb. It looks like Google Earth spotted Primrose, a 16.000-ton cargo ship that ran aground near North Sentinel Island after encountering a storm 2-August from 1981. The ship was transporting chicken feed from Bangladesh to Austria when it sank in the Bay of Bengal. Photo Courtesy: Google Maps but the story had a scarier twist. A homely island tribe that kills strangers began to approach the ship. About fifty men of the tribe started to make wooden boats and were preparing to attack the Prmulas with spears and knives. The crew was eventually rescued by a helicopter that towed it safely. Google Street View just a group of students from nearby Musashino Art University enlisted by the Japanese blog, Daily Portal Z, to play a prank. Photo courtesy: Google Maps Students were invited to dress up as birds and walk down the street as the car passed. Student photographs have since become viral, and the group has been nicknamed "Japanese Dover People" only serves to show that birds of a feather join in flocks. Party on, Wayne and Garth! Looks like Wayne's World's crazy duo decided to take a walk down the street. Far from their iconic eighties and carrying sticks and a guitar. Photo Courtesy: Google Maps The fictional friends were adored characters from a recurring sketch of Saturday Night Live that was transformed into a very popular 1992 film. So both of you Were they portrayed by Dana Carvey and Mike Myers truly in England? How Wayne Garth would say, "No way! Way!" Google Earth picked up captivating pictures of the giant Cerne Abbas. Located in the village of Cerne Abbas, near Dorset, England, the wisdom giant bare is 185 feet in length and wields a great club. The white chalk image stands out against the surrounding luxuriant vegetation. Photo Courtesy: Google Earth The Age of the Giant Cerne Abbas is unknown. Some historians believe that it represents an old Saxon Divinity or Hercules, while other scholars believe that it could be a fertility symbol. The figure is a monument supervised by the National Confidence of England and also is a popular British attractive. Anyone who verifies the images of the island of Antórtica deeception is certain to be deceived. What appears to be an island when viewed from above on Google Earth is actually the top of an active volcano. For many years, the "island" was used for commercial whales and also served as a research activities stopped when it was decided that working on an active volcano was very risky. During the DÃ © Each of 1960, the volcano burst twice in two years, demolishing buildings and leaving everything under piles of ashes. Today, the island of disease is a popular tourist attraction. If you are reading this in prison and you are contemplating an escape, do not plan your escape when a car from Google Maps is driving down the street. It seems that it is what Google Cans may have caught while filming in Gauteng, South Africa. Photo Courtesy: Google Maps This photo was taken in 2010 and shows a man in an orange macchan Desert road with a large and empty field on one side and houses outside the distance. While man has never been identified, it certainly seems like this guy is in Lam. The abundance of Google Street View fan were left scratching his head after seeing this photo of a woman in a penny-farthing large wheel) Riding down the street with a towing penguin animal. trailer. sites of Cottesloe, AustrÃ; lia, were able to clear up the confusion. Photo courtesy: Google Maps According to sources, the cyclist © the knight-bellied penny-farthing, Nicky Armstrong. Armstrong tows his toy penguin, called "Peng", after her to help stabilize his bike. Towing something also © prevent her from turning around if she has to suddenly stop. When she is not riding with Peng, the medal-winning cyclist practices the law. No, this plane didn't crash in the forest. Itãa¢s a passenger jet Boeing 727 decommissioned that was converted into a home. Although hidden by trees on a 10-acre property, this house in Hillsboro, Oregon, is © a house you can see on Google Earth. Photo courtesy: Google Earth The House © owned by Bruce Campbell (sorry, not the famous Evil Dead actor), who bought the aviã o- £100,000 in 1999. Campbell belongs to the Aircraft Fleet Recycling Association, which seeks to reuse old airplanes by turning them into homes or other work or recreational spaces out of the Badlands Guardian. Located in Alberta, CanadÃi, the image appears to be that of an indigenous woman carved in profile. But the stone figure is © in reality just the result of the erosA£o water and wind. When viewed from above, the Badlands Guardian looks convex, but in reality it's © cA'ncavo. Photo Courtesy: Google Earth The feature was originally seen in Google Earth by Lynn Hickox in 2005. The Badlands Guardian was called a "geological" wonder" and was listed by Time magazine as one of the top 10 images on Google Earth. If you like ananÅis, you will surely enjoy the labyrinthine maze of Dole Plantation. Google Earth has captured some sweet images of the dwarf plantation. Which is © © also a popular Wahiawa, Hawaii, tourist attraction. According to Dole, the incredible maze is scattered Travs acres. Photo courteous: Google Maps The spectacular spectacula currently one of the permanent permanent permanent permanent better labyrinths in America. Instead of carving a traditional Circle of Cultures, Farmer Pedro Ureta planted 7,000 cypresses in his wife's memory, which died unexpectedly at age 25. The memorial guitar stretches for two tits of a mile and is created by cypresses and blue. Eucalyptus standing guitar ropes, Photo Courtesy: Google Earth's wife Earth, Graciela, once suggested planting an unique design on her ownership. But during the brief marriage, they never found time to implement the idea. Crushed by his unexpected death, uret designed and planted the guitar forest to honor Graciela's love of the instrument. If you find yourself close to Homestead, Flourida, you may want to visit the mysterious Coral Castle. Seen on Google Maps, Coral Castle is another fortress. The bizarre structure was built around 1920 by the Latest Immigrant Ed Leedskalnin for his former bride. The Lovelestruck Leedskalnin for his former bride. The Lovelestruck Leedskalnin for his former bride. The Lovelestruck Leedskalnin for his former bride. Maps With Many Coral Blocks Weighing Several Tons, scientists are not exactly sure how the secret Leedskalnin was able to build Coral Castle alone. The bitter bachelor eventually turned coral castle into a local tourist attraction. At first sight, this photo on Google Maps may seem like a group of zombies walking through an open field. But they are just a collection of scarecrows not as scary that they were seen in Kainu, Finlândia. The scarecrows to the artist Rejo Kela, who created almost 1.000 numbers. He called his people silent art. Quiet. The villagers became so fond of guiet people that they periodically fix the scarecrows and change their clothes when the items become used. Google Earth fans can't help but feel a little romantic after spotting images of this heart-shaped pond at the Columbia, Ohio station. Nobody © I know if there is a history behind this precious pond that is not made by man and located on private property with a white garage surrounding the beautiful water resource. Photo courtesy: Google Earth When the 30-acre home site was on sale, was described as having "exuberant landscaping with a view to the heart-shaped pond in shape © a popular image on social media during Valentine's Day. John Travolta © a famous actor, but also © m m © an aviation fan. Google Earth has tarnished two of their planes sitting off their Flarida property near Ocala. The large property has its own private runway and taxiway, with two buildings adjacent to the house designed to cover the planes. Photo Courtesy: Google Earth on 2007, Travolta to © So passionate about the airplane that he wrote a book about flying and also © He served as a pilot when Oprah Winfrey travelled on a private flight to Austr a lia. While this cone may resemble something of the Lion King, it was created in 1933 to promote Whipsnade's zoological in Bedfordshire. At 483 bread © Yeah, yeah © the largest hill design in England. The symbol © So big that it had to be camouflaged during World War II to prevent German pilots from using it for navigation. Photo Courtesy: Google Earth in 1981 The fan looked great with hundreds of children to celebrate the 50th anniversary of the zoological. But after dark © neglig e e and growth of Damages, the cone has a reform in 2018, when 800 tons of chalk were used in its renovation. To the south of Mother's city © in the channels of It© Doll Island. The owner of Icelandhasput the terrifying toys in various places in the fifties to ward off the bad guys. More than fifty years later, dolls covered in spider web sums that are used from time and time still hang from trees and buildings. Photo Courtesy: Google Maps The dolls were meant to scare away the spirit of a girl who allegedly drowned years earlier. The Island of © is now a tourist iced and a religious spot where some will leave offerings for the decaying toys. This photo from Google Maps appears to show a Cambodian violent political faction, the Khmer Rouge, and turned into a takeover installation for political prisoners. Photo Courtesy: Google Maps During the seventies, the building was renamed "S-21." Of the 14,000 people who were taken to S-21 as prisoners, only seven are known to have survived. Today S-21 Is called the Tuol Sleng Museum of GenocAdio and serves as a public memorial and education center to help prevent future atrocities. When people saw this pentagram in Google Earth images, they weren't sure what was going on in Kazakhstan © the pentagram often associated with witchcraft and satanic worship, leading some conspiracy users to speculate that something nefarious was happening. Photo Courtesy: Google Earth As if you see, the symbol was © than satanic. The pentagram, which © 1,200 pũ0 pé0 of diameter, was actually the stowed of a star-shaped park and possible camping dating back to when the Kazakhstan was part of the Soviética Union. During the stowed of a star-shaped park and possible camping dating back to when the Kazakhstan was part of the Soviética Union. During the stowed of a star-shaped park and possible camping dating back to when the Kazakhstan was part of the Soviética Union. During the soviética era, the stars were popular symbols used on flags, posters and buildings. Holy perfect place! This building is © as the roof seems to have been reserved especially for Batcopter. Although it seems to be the perfect heliport, no one to the left managed to glimpse the Caped Crusade yet. The famous superhero probably thinks he thinks They are very safe at the Kadena Base, an American advanced post in Okinawa, Japan. Photo Courtesy: Google Earth according to a spokesperson for Kadena's Aerial Base, the symbol was placed on the roof by the 44th force, which is called the vampire bats. No one knows who painted the coverage logo, but it is believed to have been there from the DÃ © Each of 1980. 1980.
