I stayed on vacation. Karma and the team were all so kind and took care of us. I would highly recommend! I bought a mod and juice. customer service was great when we bought the mod, however the situation quickly devolved from there. we have secured with the partner if problems have occurred, we would be able to return and exchange the mod. on day 4, the mod began to die after a couple of hits and restart. So, we came back and the association that originally sold us the mod refused to help and claimed the " mod functions perfectly". the partner said that "they have no idea what these mods are supposed to be," asking the question: if you don't know anything about a mod, then why is itsold to your store? The associate also tested the mod itself and said "yes you're right it's working low." However, even after recognizing a problem, the partner refused to help. The partner then told me to return "in a couple of days" to talk to the owner, which again makes no sense as this is a tourist destination and people come and go all the time. Unfortunately this partner was not willing to help, rude, and dismiss any problem. This was the worst Hilton Head experience. My business will go to a different vaccine shop on this island for a long time to come. Great place with a competent owner. I've had a surgery on the elbow and wrist. I'm done with the CRPS. Nothing seemed to help. I had so many different types of shots, physical therapy etc. The only thing that helps everyone is the frozen CBD that Karma suggested. Thank you very much. I never thought I'd try something like this, but I'm glad I finally did it.10/27/2015 Previous review I'm glad that there is finally a place like this when I visit Hilton Head Island.
