" Parallel App " is for users who want to keep two accounts of an app both online at the same time with one phone, while the messages and data of your different accounts are in the space separate.\* Feature: Access 2 accounts of an app on the same device Help users access multiple accounts of the same app, and it will easily balance between user life and work. The data of both accounts will not interfere with each other. No matter online games or SNS, Parallel Accounts offer you double experience at once. Login and run more than 2 social accounts, receive messages and chat with friends on a device! Play games with multiple accounts, and keep them online simultaneously to get double function and experiences! Enjoy more fun! Easy to manage multiple social network accounts, separate work and personal life. Do Multiply powered by River Stone Tech, with the lightest and most powerful clone engine, can help clone your app in another separate parallel space. In addition, Do Multiple can help you manage cloned app notifications and provide Privacy Locker function to protect the cloned app. It also provided Lite mode to achieve the best memory and battery usage for the cloned app. Do Multiple is compatible with most instant messaging apps, game apps and social networking applications. Google Play Service is supported, and you can connect with your Google Play Games or other services in your clones. Access your multiple messaging, game and social applications\* Balance between your life and work easily with multiple accounts.\* Double-game accounts and double fun.\* Data of clones and original applications are separated\* Quickly switch between the two accounts with just one click\* Run two accounts at once, and create icons with clone tags.\* Privacy Locker to protect your cloned account\* Lite mode for best power and efficiencyMemory\* ... Notification setting to manage the notification of the clones Notes: \* Permissions: Do Multiple App requires few authorizations, but Multiple do needs to apply many permissions in advance for clone applications. clone. Ensure these authorizations to make multiple to avoid the wrong function or the abnormal stop when performing clones consumption: doing easier do not take up too much memory, battery and data with which they are actually consumed by the app running inside. \* Notifications: please add more to the Whitelist in the system notification settings. For any problem, please contact us via the "Feedback" function within Multiple DOFs or send us an e-mail to: riverstone.tech@gmail.com All the best free apps you want on your Android Agiuntit - Connect & Transfer Send your files quickly and easily an indispensable app to keep your apps updated transfer files and share applications the most complete translator in your pocket the best search engine on the internet edit apps and customize it you want to record The audio with this tool from Samsung what happens if you always use two phones to work, one in message, while the other to be traced? So now you don't need to work anymore, because the application that will present today allows you to combine the two at the same time and does not affect each other. It is a double space is an application that can clone a different interface that helps you use 2 accounts at a time without having to go out often. Duplicate interface features yes, it's how to turn the phone in 2 then create another interface similar to the original interface. And in this virtual interface, you can do everything without affecting the original interface. After the user determines to use two interfaces at the same time, these two interfaces will not be related to each other from settings to the wallpapers. And on each of these interfaces, users can use the same social application simultaneously using 2 different accounts. Balancing things using 2 social accounts is also considered an advantage for ourselves. When you work on this account, while there is also no message in the other account. However, users can still not access the same account on 2 different interfaces. With the possibility to use 2 accounts on 1 phone, now you can balance your work with life. Interact with the entire social application after appearing on the market, it was only able to work with WhatsApp \* WhatsApp, but now it's different. Almost all social networking apps now support this app. Now you are free to use this extraordinary capacity on any application you want. Privacy space If you are afraid of other people using your phone to view personal things, now you don't need more worry. With the possibility of duplicating these two interfaces, even everything will break. While doing everything on the main screen, your memory also does not change. So in the second interface it is PRESENT THE
